

# Survey Shows Berger Needs Expansion, Accreditation

Berger Hospital is inadequate for the needs of Circleville and community.

The hospital's Board of Governors recognizes this fact. The board is interested in giving the community the best hospital facilities possible. To do this, it asked for a survey of Berger Hospital, its facilities, future and needs.

Everett W. Jones, Fort Myers Beach, Fla., was hired by the board to make a survey of the local institution and report findings to guide the board in increasing the usefulness of the hospital.

The report was released today by the board. It covers general information about Circleville and Pickaway County, the Hill-Burton hospital plan for government assistance, and the present and future possibilities of Berger Hospital.

Recommendations by Jones were given to the board.

**THE SURVEY** was conducted between April 24 and September 1, 1958. It has been reviewed by the board and the hospital's medical staff. No direct action has been taken on the survey by the Board of Governors to date, but some is contemplated. The medical staff has urged the Board of Governors to act quickly in expanding and improving facilities.

The first recommendation by Jones is for the hospital to earn full accreditation by the National Joint Commission on Accreditation of Hospitals.

In this area of Ohio only Berger Hospital and Greenfield Municipal

Hospital are not accredited.

Second suggestion was for an adequate and continuing public education and relations program.

Third, the community should attract a second fully qualified general surgeon to the hospital's staff.

The one qualified surgeon on the staff now is "obviously overworked," according to the report.

Fourth, add about 25 beds to the hospital now, but plan for an eventual 85-100 beds. The hospital has 41 beds at present.

Fifth, plan for a 20-25-bed long-term patient unit in the next 4-8 years.

Sixth, add another major operating room.

Seventh, study the possibility of providing on the hospital grounds a doctor's office building to house

all or a major portion of the medical staff.

Eighth, buy 10-15 more acres of ground for expansion.

The survey pointed out that Pickaway County and Circleville have not kept pace with other nearby counties and cities in growth. While there was a period of expansion here, due to the construction of industrial plants, that growth has reached a peak.

**FROM NOW ON**, only slow growth is possible, unless more industry is attracted to Circleville. Chances of large expansion of plants already located here is slim.

The survey showed that Berger Hospital serves an area which includes Circleville and the immediate surrounding area somewhat smaller than the retail trade area.

Most of the patients from areas other than Circleville come from Kingston, Laurelville, Stoutsville and Amanda.

The survey shows that the present hospital service area includes 28,500 persons. It predicts a service population of 28,500 by 1966 and of 31,000 of 1976. Those figures are based on the prediction the city will not grow at the rate of other surrounding cities.

Using a conservative bed population ratio of 2.5 beds for every 1,000 of population, Berger Hospital should have 66 beds at present, the beds being occupied 75 per cent of the time. That should average 49 to 50 patients a day.

The survey states that Circleville will attract one or two young qualified surgeons by 1966, plus one or two specialists and several young general practitioners.

This would increase bed needs to 3 or 3-5 beds for each 1,000 population.

Jones sees the need for about 85 beds by 1966. He also recommends 20-30 beds for long-term patients by that time.

In regard to long-term patients, Jones finds that Circleville has an unusually high number of upper age persons. He also says that of the 61 nursing home beds in Circleville, 15 are unsuitable, as defined by the Ohio State Hospital Plan, the balance are termed "replaceable."

The survey expert declares that it is likely there will be greater need for long-term beds in the future and Berger Hospital should plan a long-term unit. The current need, he said, is not for additional nursing home beds, but for replacement of existing beds in better facilities.

THE JONES report also lists other factors which indicate a need for strengthening the hospital program and adding to the facilities.

He says strong, speedy efforts should be made to attract another surgeon to the community. This will increase demand for beds.

The preponderance of young physicians in the area means there is a tendency to make more use of hospital facilities, including laboratories and X-Ray services. Increased emphasis on preventive medicine as opposed to curative medicine will make need for more out-patient facilities.

More use of Blue Cross will increase bed needs. Better organization of hospital, staff and Board of Governors will make the hospital more attractive and keep

more patients in the city — which is good for local business.

Accreditation also will make the hospital bed demand increase otherwise, patients will be increasingly reluctant to go to a non-accredited hospital and doctors will eventually refuse to practice in a non-approved institution.

The general impression from the report is that Berger Hospital is too small now and will have to be expanded soon. Accreditation and attraction of a second fully-qualified surgeon are imperative.

Members of the Board of Governors, who called for the survey, are Mayor Ben H. Gordon, chairman; Richard Simkins, Durward Dowden, R. L. Brehmer, Russell Palm, Glenn Grimes, Dr. R. S. Hosler, Dr. Walter Haine and Howard Koch.

## Hostility Grows Between Mexico, Little Guatemala

MEXICO CITY (AP)—Hostility toward neighboring Guatemala mounted in Mexico today, fired by a report that Guatemalan demonstrators had destroyed a border bridge and Guatemalan planes had flown over a Mexican city in the southern area.

Guatemalan police in turn charged that 20 armed Mexicans had crossed the border Thursday

and plundered the village of Santa Ana.

Mexico's government Party of Revolutionary Institutions called on half a million persons to assemble in Mexico City Sunday before the Presidential Palace to demonstrate support for President Adolfo Lopez Mateos.

Lopez Mateos broke diplomatic relations with Guatemala last week after President Miguel Ydigoras Fuentes had rejected a Mexican protest against the strafing of Mexican fishing boats. Three fishermen were killed. Guatemala claimed they were trespassing.

Several thousand residents held a meeting to back Lopez Mateos Thursday night in Acapulco, a major fishing port as well as resort on the west coast.

Reports from Tapachula, largest Mexican city on the 500-mile border and military headquarters for the district, said a spontaneous demonstration on the Guatemalan side of the Suchiate River had got out of control Thursday. It resulted in destruction of the bridge linking Ayutla, Guatemala, with Ciudad Hidalgo, Mexico, the reports said.

Tapachula also reported that a squadron of Guatemalan air force planes had flown overhead several times Thursday.

Guatemala has complained to the United Nations and two inter-American organizations that Mexico is concentrating troops in the coastal border area, "threatening the peace and security of this region."

The dispute began in late December, with Guatemala complaining that U.S. and Mexican boats were fishing illegally in Guatemalan Pacific waters. President Ydigoras Fuentes warned that "bandits and pirates" would be fired on.

## Evan P. Ford To Try Again

Evan P. Ford, Route 2, Ashville, today asked the Pickaway County Board of Elections for Democratic nominating petitions for Circleville Municipal Court Judge.

Everett Stocklen, 146 E. High St., yesterday filed his nominating petitions for Democratic candidate for City Treasurer. Stocklen is the incumbent.

Ford, Canal Winchester attorney, was defeated last November in his bid for County Common Pleas Judge. He was ruled off the May 1958 primary ballot for lack of sufficient residence time in the county.

After a successful write-in campaign in the primary he was handed an almost 2-1 shellacking by incumbent Judge William Ammer.

Incumbent Municipal Judge Sterling Lamb recently filed nominating petitions on the non-partisan or independent ticket for a return try for the Muny Court seat.

## Texas Girl Killer, 16, Is Sent to Hospital

HOUSTON, Tex. (AP)—Diana Daye Humphries, 16, who killed her brother because nothing exciting happened around their home, was sent to a state hospital at Austin Thursday for an indefinite period.

The commitment order by Travis County Judge Tom Johnson wasn't contested.

Robert D. Humphries Jr., 14, was shot to death Sept. 10.

"I was bored," Diana said in a signed statement to officers. "all we do is eat, sleep and watch TV."

## Columbus Man Admits Safe Job, Burglary of Schools

A safe job at Saltcreek Twp. School and a burglary at Wayne Twp. School, both last month, have been solved by Sheriff Charles H. Radcliff announced today.

Sheriff Radcliff said Carl William Kelley, 35, Columbus, apprehended Monday in Delaware County while attempting a burglary, has admitted cracking the safe at Saltcreek and entering Wayne School.

According to the sheriff, Kelley admitted making off with about \$300 at Saltcreek and taking an undetermined amount of food at Wayne. The safe was opened at Saltcreek on December 27 and Wayne was entered December 12.

The sheriff said most rooms and desks at Saltcreek were ransacked, causing damage estimated at \$1,000. Kelley said he used a screw driver and wrecking bar, noting that he stayed in the school most of the night completing the job.

KELLEY was apprehended in Powell, Delaware County, a early Monday morning while attempting to burglarize a service station. His connection with the burglaries here became apparent when lawmen found a money bag issued by the Circleville Second National Bank in the accused man's home.

Kelley also is accused of several burglaries in Franklin and Hocking counties, mostly school houses. Sheriff Radcliff said there is a possibility that he is connected with

## Tait Says Damage Reaches \$700,000

Bernard Tait, local Civil Defense director, today announced that his estimate of flood damage here last week has been set at \$700,000.

Tait said this estimate was submitted to the Ohio Civil Defense office in Columbus following a request by that department for damages suffered here.

The local director said his estimate was based on total damage throughout the county, including an estimated \$300,000 loss inflicted on county highways.

Tait said Civil Defense forms summarizing local damage have been received here. They will be filled out by the director and other county officials.

The father of three children, Kelley was spotted in the Powell service station by a neighbor who informed the owner and Powell lawmen. He was captured a few minutes later.

Sheriff Radcliff said he planned to travel to Delaware today for further investigation. He said initial charges probably will be filed by Delaware County officials.

## Traffic Death Toll in U.S. Still Too High

CHICAGO (AP)—Traffic accidents in the United States took a heavy toll in 1958, but the number of persons killed, 37,000, was the lowest since 1954.

The National Safety Council, reporting today on motor vehicle accidents said it estimates that 1,300,000 persons suffered crippling traffic injuries.

The cost, including property destruction, wage loss, medical expense and overhead cost of insurance, was put at \$5,400,000,000.

"When you think of the price we are still paying for highway accidents in life and limb and money," the council commented, "there is little cause for complacency or satisfaction over the reduction of the death toll."

The traffic death toll of 37,000 was 1,700 lower than in 1957 and approximately 900 below the total of 39,628 in 1956. Thus, the council said, the result was a two-year saving of 2,600 lives, achieved in the face of a five per cent increase in highway travel for that period.

The 1958 death rate was 5.6 deaths for every 100 million vehicle miles.

In 21 of the past 24 months, the council said, the death toll was lower than the same month of the preceding year.

Despite the two-year downturn in fatality statistics, the death toll was roughly equal to the 1950 population of Portsmouth, Ohio, or Newport, R.I. Last year's deaths on the highways were four per cent under the 38,702 in 1957 and seven per cent fewer than the 39,528 in 1956. The total compared to the 1954 toll of 35,586, which was the lowest since 1950. The record toll is 39,909, set in 1941.

## Ohio Asks U.S. Aid in Floods

**\$1 1/2 Million Sought To Assure Relief**

COLUMBUS, Ohio (AP)—The federal government has been asked for 1 1/2 million dollars to take care of immediate and pressing needs of flood-stricken cities and counties in Ohio.

Gov. Michael V. DiSalle sent the request Thursday.

He told civil defense officials that the federal disaster relief money will be doled out to local governments at a rate not to exceed 75 per cent of the minimum damage estimate for public property. The remaining 25 per cent will be reviewed later.

The federal funds, to be administered by the state, will take care of initial requirements for about 30 days, the governor said.

The governor's special Cabinet committee has figured Ohio's flood damage to public and private property at more than 93 million dollars. Of the total, more than 23 million was in damage to local government property.

The governor conferred Thursday with James R. Tichenor, administrator of the Bureau of Unemployment Compensation, and said these points came out of the discussion:

1. Ohio can get only about 6 to 7 million dollars in emergency unemployment loans from the federal government between now and April, when the program expires.

2. Last year, a period of recession, 275 million dollars was paid out in state jobless benefits, and compensation is still going out at the rate of 4 million a week. The benefit fund balance stands at 394 millions and is not in jeopardy.

3. In the last six months, 61,000 Ohioans have exhausted both regular and emergency unemployment benefits, but there is no record of how many of them have since found work.

4. DiSalle would like to see a liberalization of jobless benefits include more emphasis on the number of dependents a worker has. An unemployed worker with five children now only gets credit for two when he draws benefits.

## Bartender Tricked In Toledo, Loses \$65,000 to Trio

TOLEDO, Ohio (AP)—Three men tricked a bartender into letting them into a cafe today, battered open a safe and escaped with an estimated \$65,000 in cash, negotiable payroll checks, stocks and bonds.

Police said the three also took a large number of mortgage, cognovit and promissory notes belonging to William Hart, owner of the cafe.

The bartender, Frénchie Bourdeau, 69, told police the robbers set the stage at 4 a.m. when one telephoned him and said:

"This is Al. I owe Bill Hart \$40. If I come over, would you take the money and give me a receipt?"

But, said the bartender, when he opened the door, "Al" had two cronies with him, one pointing a .45 automatic pistol at Bourdeau's stomach.

## Ike's Farm Plan Received Coldly

WASHINGTON (AP)—President Eisenhower's program to curb farm surpluses and reduce tax-supported agricultural subsidies faced today a seeming dead-end future in Congress.

This was the consensus of congressional reaction to the President's special farm message Thursday. It presaged two more years of bitter congressional fighting over farm policy.

It also raised the possibility that Democrats, now in topheavy control of Congress, would invite another presidential veto with a far stronger program than would be acceptable to the administration.

Secretary of Agriculture Benson

told a news conference the administration will not send Congress a bill to carry out its recommendations but would be ready to help Congress draft legislation. That put the burden of deciding on changes pretty much up to Congress itself.

The President's message, in the most general terms, laid its chief emphasis on the point that the five-billion-dollar-a-year agricultural program "has not worked."

It urged abandonment of the 25-year-old practice of pegging price support levels to the dollar parity between farm costs and farm prices that existed in the "golden years" of agriculture before the 1920s.

In its stead, the message proposed pegging price supports to a percentage of the average market price of immediately preceding years.

"Not a ghost of a chance" was the prospect of enactment given by Sen. Allen J. Ellender (D-La.), chairman of the Senate Agriculture Committee.

"This is an antifarm message," declared Chairman Harold Cooley (D-N.C.) of the House Agriculture Committee.

Sen. Spessard Holland (D-Fla.) said "high supports and regimentation have brought farmers nothing but grief and loss."

But there was little general endorsement of the program, even from Republicans.

## Trapped Diver Saved from Icy Waters

CHICAGO (AP)—A veteran diver, trapped for more than six hours in 75 feet of icy water deep under a Chicago street, was rescued Thursday after a desperate battle.

Death apparently was only inches away when Frank Heffling, 55, was pulled from a 12-foot, 179-foot deep shaft leading to a water tunnel on the south side.

His diving suit was torn and filled with water up to his chin. Only the pressure in his air hose kept the water from filling the helmet and drowning him.

His own efforts and those of two fellow divers who repeatedly descended into the murky, near-freezing water finally freed the husky Heffling.

Heffling, a diver for more than 25 years, was trapped when he descended into the tunnel to free a stuck valve and check a bypass gate set into a big, five-ton water-tight door leading to a 16-foot water tunnel under construction.

Increased suction drew the diver toward the gate. His leg was drawn through the opening and held there as if in a vice. He was trapped.

For more than six hours thereafter rescue efforts went on. Two divers finally freed Heffling and got him into a steel bucket of a derrick crane that was lowered into the shaft.

Doctors said the diver had suffered only minor injuries to his right hand and leg. They said his greatest need was rest.

## Soviet Guidance System Lauded

**Russ Missile Firing Error: 15-20 Miles**

WASHINGTON (AP)—Directors of the nation's civilian space efforts said today the Soviet Lunik, or moonshot, was a success.

Three experts of the National Aeronautics and Space Agency testified the moon shot showed powerful thrust and a good system of guidance.

Dr. Homer Stewart, a NASA planner, said the same guidance system could direct an intercontinental ballistic missile more than 5,000 miles to a target with an error of less than 15 or 20 miles.

Questions by the Senate space and preparedness groups inquiring into military might indicated that the Soviets remain ahead in the race for outer space.

Sen. Lyndon B. Johnson (D-Tex.), chairman of both the space and preparedness group, recounted the series of spectacular Soviet successes with satellites and then said: "This committee wants to know where we now stand. When can the American people expect to catch up with the Russians?"

Dr. T. Keith Glennan, administrator of NASA, accompanied by Stewart and Dr. William H. Pickering, director of NASA's jet propulsion laboratory, answered questions about the Soviet moon shot.

Glennan said it proved that the Russians have substantially more thrust or power for satellites and missiles than this country had developed.

Stewart estimated that a power thrust of between 250,000 and one million pounds was used to hurl the Lunik into space.

With advanced equipment, he said, the moon shot vehicle might succeed with as low as a quarter of a million pound thrust. If the equipment was poor it might take a million pounds, he added.

Stewart said the guidance directing the shot was "of good quality" and the timing of the shot indicated an effort either to hit the moon or pass close to it.

Pickering said tracing stations in California tried to catch the Russian moon shot on its initial phase and missed but later received several hours of signals from far out in outer space.

He said other tracking stations also received weak signals.

"It did go out past the moon," Pickering said.

Maj. Gen. Bernard A. Schriever, the Air Force's top missile man, testified Thursday. He urged a greater buildup in long-range rockets to counter a "very dangerous...ballistic missiles threat" from the Soviet Union.

COLUMBUS, Ohio (AP)—"We now are in a position to make a decision" on the site for a new 15-million-dollar state office building in Columbus, Chairman Darold I. Greek of the State Office Building Commission said Thursday. He indicated that the commission probably will name the site at its next meeting Feb. 12. Three sites are under consideration.

Choking Smog Plagues Britain

London Sees Cloud Lifting Slightly

LONDON (AP)—Choking clouds of frightening smog lifted slightly from London today but still rolled their poisonous way across the rest of Britain.

Londoners hoped that the break meant there would be no repetition of the "yellow death" smog that killed 12,000 persons in Britain in 1952.

Enough fog was left, however, to slow all road and rail traffic. The capital's airport, 20 miles from the city center, was completely closed in.

Dense smog settled on Manchester, metropolis of the north. But a quick break in the Western approaches gave ships the chance to run for Welsh ports.

The peak of the 1952 smog was reached after four days. In London alone 4,000 persons died, mostly because of sulphur fumes from factory chimneys.

Ninety per cent of the victims then were older than 45 and already had heart or chest ailments. Generally, healthy people suffered only minor throat irritations.

Doctors warned today that old persons and patients should remain indoors. "If you do go out, wear a mask or cover your mouth with a scarf," one advised.

The weather caused major transportation tie-ups. Sixty ships were held up in the Thames River. London Airport was completely shut down. Gatwick Airport, 27 miles south of central London, was one of the few major fields still open, and it was so busy with landing planes that none could take off.

Reports continued to come in of highway pile-ups involving dozens of vehicles. Fifty autos and trucks tangled in a sequence collision near Birmingham.

Firemen Summoned To Keaton Home

The Circleville Fire Department was called to the home of Frank Keaton, 216 E. Corwin St., at 7:45 p. m. yesterday to extinguish a blaze in an upstairs bedroom.

Li. Noble Barr and Firemen Glenn Jones and Ray Anderson said flames were confined to bed clothes, drapes and clothing in a chest of drawers.

The firemen said damage was estimated at \$100. Cause of the blaze was not determined, they added.

After a successful write-in campaign in the primary he was handed an almost 2-1 shellacking by incumbent Judge William Ammer.

Incumbent Municipal Judge Sterling Lamb recently filed nominating petitions on the non-partisan or independent ticket for a return try for the Muncy Court seat.

Texas Girl Killer, 16, Is Sent to Hospital

HOUSTON, Tex. (AP) — Diana Daye Humphries, 16, who killed her brother because nothing exciting happened around their home, was sent to a state hospital at Austin Thursday for an indefinite period.

The commitment order by Travis County Judge Tom Johnson wasn't contested.

Robert D. Humphries Jr., 14, was shot to death Sept. 10.

"I was bored," Diana said in a signed statement to officers. "all we do is eat, sleep and watch TV."

Ex-State Senator Gets Building-Loan Position

COLUMBUS, Ohio (AP)—Commerce Director John W. Bush today named Andrew C. Putka of Cleveland, former state senator, as superintendent of the State Building and Loan Division.

Appointed by Bush as chief of the Securities Division was William Green, Columbus attorney.

Ohio Asks U.S. Aid in Floods

\$1 1/2 Million Sought To Assure Relief

COLUMBUS, Ohio (AP) — The federal government has been asked for 1 1/2 million dollars to take care of immediate and pressing needs of flood-stricken cities and counties in Ohio.

Gov. Michael V. DiSalle sent the request Thursday.

He told civil defense officials that the federal disaster relief money will be doled out to local governments at a rate not to exceed 75 per cent of the minimum damage estimate for public property. The remaining 25 per cent will be reviewed later.

The federal funds, to be administered by the state, will take care of initial requirements for about 30 days, the governor said.

The governor's special Cabinet committee has figured Ohio's flood damage to public and private property at more than 93 million dollars. Of the total, more than 23 million was in damage to local government property.

The governor conferred Thursday with James R. Tichenor, administrator of the Bureau of Unemployment Compensation, and said these points came out of the discussion:

1. Ohio can get only about 6 to 7 million dollars in emergency unemployment loans from the federal government between now and April, when the program expires.

2. Last year, a period of recession, 275 million dollars was paid out in state jobless benefits, and compensation is still going out at the rate of 4 million a week. The benefit fund balance stands at 394 millions and is not in jeopardy.

3. In the last six months, 61,000 Ohioans have exhausted both regular and emergency unemployment benefits, but there is no record of how many of them have since found work.

4. DiSalle would like to see a liberalization of jobless benefits include more emphasis on the number of dependents a worker has. An unemployed worker with five children now only gets credit for two when he draws benefits.

CHICAGO (AP) — Traffic accidents in the United States took a heavy toll in 1958, but the number of persons killed, 37,000, was the lowest since 1954.

The National Safety Council, reporting today on motor vehicle accidents said it estimates that 1,300,000 persons suffered crippling traffic injuries.

The cost, including property destruction, wage loss, medical expense and overhead cost of insurance, was put at \$5,400,000,000.

"When you think of the price we are still paying for highway accidents in life and limb and money," the council commented, "there is little cause for complacency or satisfaction over the reduction of the death toll."

The traffic death toll of 37,000 was 1,700 lower than in 1957 and approximately 900 below the total of 39,628 in 1956. Thus, the council said, the result was a two-year saving of 2,600 lives, achieved in the face of a five per cent increase in highway travel for that period. The 1958 death rate was 5.6 deaths for every 100 million vehicle miles.

In 21 of the past 24 months, the council said, the death toll was lower than the same month of the preceding year.

Despite the two-year downturn in fatality statistics, the death toll was roughly equal to the 1950 population of Portsmouth, Ohio, or Newport, R.I. Last year's deaths on the highways were four per cent under the 38,702 in 1957 and seven per cent fewer than the 39,528 in 1956. The total compared to the 1954 toll of 35,586, which was the lowest since 1950. The record toll is 39,969, set in 1941.

Police said the three also took a large number of mortgage, cognovit and promissory notes belonging to William Hart, owner of the cafe.

The bartender, Frénchie Bourdeau, 69, told police the robbers set the stage at 4 a. m. when one telephoned him and said: "This is Al. I owe Bill Hart \$40. If I come over, would you take the money and give me a receipt?"

But, said the bartender, when he opened the door, "Al" had two cronies with him, one pointing a .45 automatic pistol at Bourdeau's stomach.

Ike's Farm Plan Received Coldly

WASHINGTON (AP) — President Eisenhower's program to curb farm surpluses and reduce tax-supported agricultural subsidies faced today a seeming dead-end future in Congress.

This was the consensus of congressional reaction to the President's special farm message Thursday. It presaged two more years of bitter congressional infighting over farm policy.

It also raised the possibility that Democrats, now in topheavy control of Congress, would invite another presidential veto with a far stronger program than would be acceptable to the administration.

Secretary of Agriculture Benson told a news conference the administration will not send Congress a bill to carry out its recommendations but would be ready to help Congress draft legislation. That put the burden of deciding on changes pretty much up to Congress itself.

The President's message, in the most general terms, laid its chief emphasis on the point that the five-billion-dollar-a-year agricultural program "has not worked."

It urged abandonment of the 25-year-old practice of pegging price support levels to the dollar parity between farm costs and farm prices that existed in the "golden years" of agriculture before the 1920s.

In its stead, the message proposed pegging price supports to a percentage of the average market price of immediately preceding years.

"Not a ghost of a chance" was the prospect of enactment given by Sen. Allen J. Ellender (D-La.), chairman of the Senate Agriculture Committee.

"This is an antifarm message," declared Chairman Harold Cooley (D-NC) of the House Agriculture Committee.

Sen. Spessard Holland (D-Fla.) said "high supports and regimentation have brought farmers nothing but grief and loss."

But there was little general endorsement of the program, even from Republicans.

Soviet Guidance System Lauded

Russ Missile Firing Error: 15-20 Miles

WASHINGTON (AP)—Directors of the nation's civilian space efforts said today the Soviet Lunik, or moonshot, was a success.

Three experts of the National Aeronautic and Space Agency testified the moon shot showed powerful thrust and a good system of guidance.

Dr. Homer Stewart, a NASA planner, said the same guidance system could direct an intercontinental ballistic missile more than 5,000 miles to a target with an error of less than 15 or 20 miles.

Questions by the Senate space and preparedness groups inquiring into military might indicated that the Soviets remain ahead in the race for outer space.

Sen. Lyndon B. Johnson (D-Tex.), chairman of both the space and preparedness group, recounted the series of spectacular Soviet successes with satellites and then said: "This committee wants to know where we now stand. When can the American people expect to catch up with the Russians?"

Dr. T. Keith Glennan, administrator of NASA, accompanied by Stewart and Dr. William H. Pickering, director of NASA's jet propulsion laboratory, answered questions about the Soviet moon shot.

Glennan said it proved that the Russians have substantially more thrust or power for satellites and missiles than this country had developed.

Stewart estimated that a power thrust of between 250,000 and one million pounds was used to hurl the Lunik into space.

With advanced equipment, he said, the moon shot vehicle might succeed with as low as a quarter of a million pound thrust. If the equipment was poor it might take a million pounds, he added.

Stewart said the guidance directing the shot was "of good quality" and timing of the shot indicated an effort either to hit the moon or pass close to it.

Pickering said tracing stations in California tried to catch the Russian moon shot on its initial phase and missed but later received several hours of signals from far out in outer space.

He said other tracking stations also received weak signals.

"It did go out past the moon," Pickering said.

Maj. Gen. Bernard A. Schriever, the Air Force's top missileman, testified Thursday. He urged a greater buildup in long-range rockets to counter a "very dangerous...ballistic missiles threat" from the Soviet Union.

## Nursing Home Fire Traps 10

CHICAGO (AP) — One person perished and 10 were reported trapped today in a burning nursing home west of Chicago.

Dr. Samuel K. Lewis, Du Page County coroner, said a deputy told him the patients were trapped on the second floor of the Glen Ellyn Acres Nursing home in Glen Ellyn, a suburb west of Chicago.

The home, known in the neighborhood as "the Castle," is at Roosevelt road and Illinois Route 53.

The home is an old mansion of three stories with a tower. It is about 60 or 70 years old, with a stucco exterior and wood paneled interior.

## 70 Pct. Students Flunk Physics in Florida University

MIAMI, Fla. (AP)—University of Miami physics students reacted angrily to word that nearly 70 per cent of them flunked their final examinations.

When grades were announced Thursday, the glass of a bulletin board on which the grades were posted was broken. Some students wept. Others criticized their professors as indifferent teachers or theorists.

More than 400 students had started the freshman physics course. Of the 319 who finished, 221 failed and 48 got D's, a grade which passed them but gave no credit toward graduation.

Forty-two took second-year physics. Thirty failed; three got D's.

"The whole cause was bad preparation by the students," said Dr. Harry Robertson, chairman of the physics department.

## Trials Resume In Cuba for Batista Aides

HAVANA (AP) — Further trials of Batista officers are under way in Santiago de Cuba, capital of easternmost Oriente Province.

A rapid-fire series of events Thursday brought these developments to a close after a three-day break. The names of those to face the military courts in Havana have not been disclosed, but they were believed to be lesser offenders.

Two tribunals were planned in the capital, one at La Cabana military fortress where most of those under arrest are confined, and the other at the Camp Columbia army headquarters.

The Supreme Revolutionary Tribunal also meets late today to rule on the appeal of former army Capt. Pedro Morejon from the death sentence given him at Camp Columbia earlier this week.

The appeal of former Maj. Jesus Sosa Blanco, condemned to death last week in a show trial in Havana's Sports Palace, is still pending before the tribunal.

The government announced that it had not completed the case against ex-Lt. Col. Ricardo Luis Grao, former commander at Bayamo in Oriente Province who was to have been tried after Sosa Blanco and Morejon as a major war criminal.

Trials also were resumed Thursday at Matanzas, capital of Matanzas Province. A Roman Catholic priest, Father Domingo Lorenzo, is acting as defense attorney there for three noncommissioned officers accused of murder and torture.

## DiSalle Aides Report Sharp Payroll Cuts

COLUMBUS, Ohio (AP)—Cabinet members indicated to Gov. Michael V. DiSalle today that economies are going to be a little more difficult to achieve than they might have believed in the first flush of their enthusiasm.

Biggest report of economy through job abolition came from Highway Director Everett S. Preston. He reported personnel with a payroll of about \$300,000 a year have been dropped.

He said he expects further savings by using highway personnel for work which has been hired from the outside on a consulting basis.

Next biggest report of cost reduction came from Liquor Director Richard C. Crouch, who reports he will have reduced his department's payroll by about \$120,000 in the next week. And, he added: "This is just a start."

Personnel savings of about \$100,000 were reported by Mrs. Mary Gorman, director of the Department of Welfare. Richard Larimar, director of public works, reported saving about \$24,000.

Other department heads reported relatively minor savings so far, but all directors said they had been delayed in their economy drive by last week's flood.

## Florida Seashore Crash Takes Life Of 7th Teenager

COCOA BEACH, Fla. (AP)—An auto smashup on Ocean Beach Drive has claimed its seventh victim.

Patrick Costello died in an Orlando hospital today after surviving an accident Thursday that took the lives of five 18-year-old Orlando youths.

Kenneth Goepper, who also survived the crash, died Thursday night.

Killed when the speeding car slammed into a beach pipeline were Kenneth L. Gardiner, James E. Weaver, Richard G. Kohler, Nickie H. Morgan and John E. Roquemore.

The car, which belonged to Roquemore, son of a Miami car dealer, tore through the pipeline at windshield level, sped more than 350 feet and stopped at the water's edge.

## Flood Threatens Findlay Again

FINDLAY, Ohio (AP)—Findlay, one of the areas hit by the floods last week, kept a nervous eye on the Blanchard River today after heavy rains Thursday night brought it to within a foot of flood level.

Officials said the river rose about eight inches an hour during the night, but the rise declined to about four inches an hour this morning.

Civil Defense officials warned residents of low areas near the river and Eagle Creek to be prepared for more flooding should the rains resume.

However, floods seem unlikely now. The rain stopped as colder weather moved into the area and the temperature is expected to stay down through Saturday.

## School Integration Nears For Reluctant Virginians

RICHMOND, Va. (AP) — Officials make preparations today for Monday's opening in Norfolk and Arlington of Virginia's first integrated public schools. Charlottesville got a delay.

A group of segregationists sought a test of legislative power with the state administration.

A rapid-fire series of events Thursday brought these developments to a close after a three-day break.

force in the fields of medical research, patient care and professional education, flexible enough to meet new health problems as they arise, with specific goals initially.

AN IMMEDIATE broad attack will be launched against arthritis and birth defects (congenital malformations), but spokesmen emphasized that as long as polio patients need care and rehabilitation the March of Dimes will provide it. In 1958, for example, about 50,000 polio victims received aid from the National Foundation which totaled approximately \$18,900,000.

Other funds raised during the 1959 drive will be used for a greatly enlarged research program. This activity is devoted to studies not only of arthritis, birth defects and polio, but of virus diseases and disorders of the central nervous system in general.

The need to train more medical specialists also is being met by expansion of the professional education program. Polio, arthritis and birth defects have crippling factors in common, demand the attention only highly skilled and well trained professionals in health can give.

Patient aid will be extended in 1959 to cover victims of arthritis and certain birth defects through the age of 18. The degree to which this program can be brought to life depends in large part on public support of the March of Dimes.

## Imagine Pigeon That Crows?

DALLAS, Tex. (AP)—Mr. and Mrs. Cecil Collins built some nests in their barn loft for pigeons and looked forward to the day when they would have squab for their dinner table.

Then they found a rooster from their flock of chickens missing.

After five days they found him, 12 feet up, billing and cooing with one of the pigeons in a nest full of eggs. Now the Collinses are waiting to see what hatches.

said in his opening testimony the United States does not plan to match the Russians on intercontinental ballistic missile production in the next two years.

But he said later that the first operational base for Atlas ICBMs will be in use next June at California's Vandenberg Air Force Base.

The counsel for the Senate group, Edwin Weiss, interpreted McElroy's testimony as meaning the first operational squadron of ICBMs will be ready in July of this year. McElroy did not challenge this statement, but a high Air Force official later said it didn't quite reflect the situation.

The official told a newsmen, "we will have some operational capability then" but that a full squadron of about 10 missiles probably will not be ready for several months after that.

## Teays Valley May Grow to 2,343 by '65

An estimated total of 2,343 students will be enrolled in the schools of the Teays Valley School District by 1965, it was reported today by School Superintendent Earl R. Gregg.

The estimate was reached by projecting into the future figures on past enrollment, increase in population and the many variables of pupil loss from grade one through 12.

It was estimated that there will be 590 high school pupils and 1,753 grade school students. That is an increase of 162 high school persons and 424 grade school pupils from today's enrollment.

THE EXPECTED enrollments from 1959 on are: 1959—1,834; 1960 1,887; 1961—1,971; 1962 — 2,068; 1963 — 2,171; 1964 — 2,262, and 1965—2,343.

Other factors which will vary the estimate are, the growth of the Teays Valley area, such as the expected Air Force Missile Base in Scioto and surrounding townships; The increase or decrease in Lockbourne Air Force Base personnel, and trailer courts that may originate with the opening of the Scioto Downs Raceway, near Shadesville.

## Nursing Home Fire Traps 10

**CHICAGO (AP)** — One person perished and 10 were reported trapped today in a burning nursing home west of Chicago.

**Dr. Samuel K. Lewis**, Du Page County coroner, said a deputy told him the patients were trapped on the second floor of the Glen Ellyn Acres Nursing home in Glen Ellyn, a suburb west of Chicago.

The home, known in the neighborhood as "the Castle," is at Roosevelt road and Illinois Route 53.

The home is an old mansion of three stories with a tower. It is about 60 or 70 years old, with a stucco exterior and wood paneled interior.

## 70 Pct. Students Flunk Physics in Florida University

**MIAMI, Fla. (AP)**—University of Miami physics students reacted angrily to word that nearly 70 per cent of them flunked their final examinations.

When grades were announced Thursday, the glass of a bulletin board on which the grades were posted was broken. Some students wept. Others criticized their professors as indifferent teachers or theorists.

More than 400 students had started the freshman physics course. Of the 319 who finished, 221 failed and 48 got D's, a grade which passed them but gave no credit toward graduation.

Forty-two took second-year physics. Thirty failed; three got B's.

"The whole cause was bad preparation by the students," said Dr. Harry Robertson, chairman of the physics department.

## Trials Resume In Cuba for Batista Aides

**HAVANA (AP)** — Further trials of Batista officers are under way in Santiago de Cuba, capital of easternmost Oriente Province. Army Lt. Vicente Ruiz was sentenced to death there Thursday.

War crimes trials resume in Havana today after a three-day break. The names of those to face the military courts in Havana have not been disclosed, but they were believed to be lesser offenders.

Two tribunals were planned in the capital, one at La Cabana military fortress where most of those under arrest are confined, and the other at the Camp Columbia army headquarters.

The Supreme Revolutionary Tribunal also meets late today to rule on the appeal of former army Capt. Pedro Morejon from the death sentence given him at Camp Columbia earlier this week.

The appeal of former Maj. Jesus Sosa Blanco, condemned to death last week in a showcase trial in Havana's Sports Palace, is still pending before the tribunal.

The government announced that it had not completed the case against ex-Lt. Col. Ricardo Luis Grao, former commander at Bayamo in Oriente Province who was to have been tried after Sosa Blanco and Morejon as a major war criminal.

Trials also were resumed Thursday at Matanzas, capital of Matanzas Province. A Roman Catholic priest, Father Domingo Lorenzo, is acting as defense attorney there for three noncommissioned officers accused of murder and torture.

## DiSalle Aides Report Sharp Payroll Cuts

**COLUMBUS, Ohio (AP)**—Cabinet members indicated to Gov. Michael V. DiSalle today that economies are going to be a little more difficult to achieve than they might have believed in the first flush of their enthusiasm.

Biggest report of economy through job abolition came from Highway Director Everett S. Preston. He reported personnel with a payroll of about \$300,000 a year have been dropped.

He said he expects further savings by using highway personnel for work which has been hired from the outside on a consulting basis.

Next biggest report of cost reduction came from Liquor Director Richard C. Crouch, who reports he will have reduced his department's payroll by about \$120,000 in the next week. And, he added: "This is just a start."

Personnel savings of about \$100,000 were reported by Mrs. Mary Gorman, director of the Department of Welfare. Richard Larimar, director of public works, reported saving about \$24,000. Other department heads reported relatively minor savings so far, but all directors said they had been delayed in their economy drive by last week's flood.

## Florida Seashore Crash Takes Life Of 7th Teenager

**COCOA BEACH, Fla. (AP)**—An auto smashup on Ocean Beach Drive has claimed its seventh victim.

Patrick Costello died in an Orlando hospital today after surviving an accident Thursday that took the lives of five 18-year-old Orlando youths.

Kenneth Goepper, who also survived the crash, died Thursday night.

Killed when the speeding car slammed into a beach pipeline were Kenneth L. Gardiner, James E. Weaver, Richard G. Kohler, Nickie H. Morgan and John E. Roquemore.

The car, which belonged to Roquemore, son of a Miami car dealer, tore through the pipeline at windshield level, sped more than 350 feet and stopped at the water's edge.

## Flood Threatens Findlay Again

**FINDLAY, Ohio (AP)**—Findlay, one of the areas hit by the floods last week, kept a nervous eye on the Blanchard River today after heavy rains Thursday night brought it to within a foot of flood level.

Officials said the river rose about eight inches an hour during the night, but the rise declined to about four inches an hour this morning.

Civil Defense officials warned residents of low areas near the river and Eagle Creek to be prepared for more flooding should the rains resume.

However, floods seem unlikely now. The rain stopped as colder weather moved into the area and the temperature is expected to stay down through Saturday.

## School Integration Nears For Reluctant Virginians

**RICHMOND, Va. (AP)** — Officials make preparations today for Monday's opening in Norfolk and Arlington of Virginia's first integrated public schools. Charlottesville got a delay.

A group of segregationists sought a test of legislative power with the state administration. A rapid-fire series of events Thursday brought these developments on a broad front stretching from Baltimore, Md., to Norfolk.

1. Judge Simon E. Sobeloff of the U.S. 4th Circuit Court of Appeals refused to stay a lower court order directing the admission of four Negro pupils Monday to Stratford Junior High School in Arlington.

He did, however, grant Charlottesville a temporary postponement of its desegregation order.

Sobeloff told the Charlottesville School Board to submit within 20 days to U.S. Dist. Judge John Paul a plan which the board proposes to bridge the gap between segregated and integrated classrooms. If Judge Paul feels the plan is a full step toward compliance with the desegregation order, then the school board has until next September to accomplish complete integration.

2. School officials in Norfolk announced plans to reopen six white secondary schools, closed since September, on an integrated basis Monday and called on the public to "show sincere understanding and cooperation to assure a smooth, orderly opening."

3. Gov. J. Lindsay Almond Jr. rejected the appeals of a segregationist bloc in the General Assembly for approval of emergency legislation that would delay the integration plans in Norfolk and Arlington.

A showdown between the non-integration forces and the Almond administration appeared imminent in the Legislature. At the same time, Alexandria school officials were called on to defend in federal court their rejection of 14 Negro applications for admission to white schools.

Pressure was brought to bear, too, on Warren County school authorities for the reopening of the white Warren County High School at Front Royal. It was closed in September along with the six Norfolk schools and two in Charlottesville by state anti-integration laws since ruled unconstitutional.

Seventeen Negro pupils are expected to enter the six Norfolk schools. Counsel for the pupils said all would report Monday to the schools to which they were assigned.

The need to train more medical specialists also is being met by expansion of the professional education program. Polio, arthritis and birth defects have crippling factors in common, demand the attention only highly skilled and well trained professionals in health can give.

Patient aid will be extended in 1959 to cover victims of arthritis and certain birth defects through the age of 18. The degree to which this program can be brought to life depends in large part on public support of the March of Dimes.

## Imagine Pigeon That Crows?

**DALLAS, Tex. (AP)**—Mr. and Mrs. Cecil Collins built some nests in their barn loft for pigeons and looked forward to the day when they would have squab for their dinner table.

Then they found a rooster from their flock of chickens missing.

After five days they found him, 12 feet up, billing and cooing with one of the pigeons in a nest full of eggs. Now the Collinses are waiting to see what hatches.

### VETERAN RETIRES

Mary A. Howard, 370 E. Union St., yesterday retired as operator at the General Telephone Co. office here. She was telephone operator for General and earlier phone companies for 47 years. Telephone company executives and local associates of Miss Howard attended a dinner in her honor Wednesday night.

## Soviet Guidance

(Continued from Page One)  
said in his opening testimony the United States does not plan to match the Russians on intercontinental ballistic missile production in the next two years.

But he said later that the first operational base for Atlas ICBMs will be in use next June at California's Vandenberg Air Force Base.

The counsel for the Senate group, Edwin Weiss, interpreted McElroy's testimony as meaning the first operational squadron of ICBMs will be ready in July of this year. McElroy did not challenge this statement, but a high Air Force official later said it didn't quite reflect the situation.

The official told a newsman, "we will have some operational capability then" but that a full squadron of about 10 missiles probably will not be ready for several months after that.

## Chamber Meeting Thursday To Feature Findlay Orator

Dr. Tennyson Guyer, one of the most dynamic speakers in America today, will address the annual meeting of the Circleville Area Chamber of Commerce, at 6:30 p. m. Thursday in the First Methodist Church.

Dr. Guyer, state senator from Findlay, is director of public relations for the Cooper Tire and Rubber Co. He has spoken in all 48 states, Canada and Cuba.

All members of the Circleville Area Chamber of Commerce are urged to attend this dinner meeting.

ing. It will be a ladies' night affair. There will be reports from retiring president C. K. (Bill) Vaughan, committee chairman and also a forecast of future plans by incoming president L. D. Varble.

Currently the C of C is conducting a membership drive. All persons, businesses and industries are urged to call Chamber executive secretary Darrell Hatfield for information. He also has tickets for the annual dinner.

Directors who will be introduced at the annual meeting are L. E. Goeller Jr., George Young, Durward Dowden, Eldred Parsons, Jack Clifton, Robert Call, George Helwagen, Dale Ankrom, Frank Barnhill Jr., Mayor Ben H. Gordon, Ned Harden, Charles Schiebler, Varble, E. Bonner Ezell, C. K. Vaughan and Jaycee president, William Clifton.

## Teays Valley May Grow to 2,343 by '65

An estimated total of 2,343 students will be enrolled in the schools of the Teays Valley School District by 1965, it was reported today by School Superintendent Earl R. Gregg.

The estimate was reached by projecting into the future figures on past enrollment, increase in population and the many variables of pupil loss from grade one through 12.

It was estimated that there will be 590 high school pupils and 1,753 grade school students. That is an increase of 162 high school persons and 424 grade school pupils from today's enrollment.

THE EXPECTED enrollments from 1959 on are: 1959—1,834; 1960—1,887; 1961—1,971; 1962—2,068; 1963—2,171; 1964—2,262; and 1965—2,343.

Other factors which will vary the estimate are, the growth of the Teays Valley area, such as the expected Air Force Missile Base in Scioto and surrounding townships; The increase or decrease in Lockbourne Air Force Base personnel, and trailer courts that may originate with the opening of the Scioto Downs Raceway, near Shadysville.

## Jesus Questioned About Tribute

SCRIBES AND PHARISEES MARVEL AT HIS ANSWER

Scripture—Luke 20:2-26.

**By NEWMAN CAMPBELL**  
IT WAS Tuesday of Holy Week when the events of today's lesson took place. Jesus had pronounced the doom of the unbelieving Israel which rejected Him in the parable about the wicked husbandmen.—(Luke 20:9-18).

The chief priests and scribes were so angered by this that they "sought to lay hands on Him," but they feared the people. So they "watched Him, and sent forth spies, which should feign themselves just men, that they might take hold of His words, that so they might deliver Him into the power and authority of the governor."—Luke 20:19-20.

So low had these so-called holy men fallen that they would do anything wicked to snare Him who had come to earth to save them.

These men came to Jesus, questioning Him by addressing Him as "Master," and saying: "We know that Thou sayest and teachest

rightly, neither acceptest Thou the person of any, but teachest the way of God truly."—Luke 20:21. Then they asked Him: "Is it lawful for us to give tribute unto Caesar, or not?"

"This was the burning question of the time," writes Dr. Wilbur M. Smith, noted clergyman and editor of *Peloubet's Select Notes*.

"A distinction must here be drawn between the customs or duties upon goods (familiar to our own day) and the land tax with poll tax. The latter only passed into the 'Fiscus' or imperial treasury. With perfect accuracy, therefore, it could be described as 'tribute to Caesar.' This tax was exacted annually, and as the Jews were not yet subject to military conscription, it formed the chief sign of their subjection to the Roman yoke."—J. Gordon Gray.

The Caesar of this time was Tiberius.

sent to us, and we are punished. On the other hand, rendering unto God the things which are His is never by compulsion, but rather is based upon love and gratitude to God. One is compulsory, the other, voluntary. Our rendering anything unto God is but a recognition of God's goodness to us. The question is, are we truly rendering to God? That is our personal responsibility. Let us see that we fulfill this duty to our Father in Heaven with thankful hearts and love.

Dr. Wilbur M. Smith suggests that both younger and older classes might be introduced to the lesson by showing them, if possible, a coin such as those used in Jesus' time, borrowed from a coin collector or dealer. If not possible, show them a half dollar of our United States coinage showing on one side the words "United States of America," and on the other, "In God We Trust."

Stanley learned about the reply when he sauntered in from school. And what was his reaction? "It's about time," he said nonchalantly. "I expected to hear from them last week."

## Moonshine Rap Faces 2 Brothers

CINCINNATI (AP)—The Adkins brothers, Clovis Robert, 40, and Everett, 50, Chesapeake, Ohio, face two indictments in connection with the illegal manufacture of liquor.

They were indicted by a federal grand jury on Jan. 8, and again Wednesday.

The brothers pleaded innocent to charges of possessing a still and a distilling apparatus in Lawrence County when arraigned Jan. 16 in U.S. District Court.

Five days after they were released on bond, they were arrested again on the same charges. The indictment Wednesday was the result of the second arrest.

It was understood the cases may be consolidated when trial time comes.

## Zanesville's Art Institute Now Is Pride of Community

ZANESVILLE, Ohio (AP)—One afternoon shortly after he became director, Dr. Charles Dietz went out and painted the front door of the Art Institute of Zanesville bright red.

"I thought maybe it would start people talking," he says, "and draw attention to the place."

"The place" is a massive, majestic residence built 70 years ago. Surrounded by hedges, shrubs and trees, it stands on a corner at the top of a sloping street in what is still generally a well-to-do residential area.

Presented to the city by Mr. and Mrs. Edward M. Ayers in 1936, it has become not only the cultural

center they intended, but a source of civic pride as well.

Not every citizen has been in it, but almost everyone knows where it is and enthusiastically commends it to the out-of-town visitor.

This pleases Dietz, a hometown boy, but doesn't satisfy him.

"I don't want the institute to be a precious little picture gallery," he declared. "It should be something useful. Art is not something precious to be put away and guarded; it's a thing to be used and enjoyed by everyone."

He's pleased, for example that classes in painting, sketching, sculpture, ceramics and photography attract many to the institute. But if the individual comes because it's the fashionable thing to do, and not because of an awakened interest in these creative outlets, Dietz feels the whole purpose is lost.

It's hard to tell whether he is more thrilled over the gift of a valuable painting to the institute or the fact that a little old lady has overcome self-consciousness and turned into an avid painter. It's easy to sense his excitement and satisfaction when he talks about both.

Dietz has tried to reach all age and interest groups in his work at the institute. More than 2,000 public and parochial school pupils visit the institute annually for tours that take up to two hours. Dietz explains the institute's history, relates the background of paintings and other exhibits, outlines the institute's activities, and answers hundreds of questions.

"Their questions are very intelligent," he adds.

A special feature is the institute's collection of children's art, started about four years ago. In-

**'WHO AM I?' is the question being asked by this lad, about 17, with a New York accent and a ring bearing initials 'J.E.' He's in Scranton, Pa., state hospital, where he was admitted two weeks before after he wandered into St. Peter's rectory. The lad is blond, slim, 5-foot-6, 110 pounds.**

## Ohioans Will Large Sum to Indiana Clinic

CLEVELAND (AP)—A bequest of \$800,000 to the James Whitcomb Riley Hospital in Indianapolis was made by Mrs. Florence Whitesell Hanley, according to her will on file in probate court.

Mrs. Hanley was the widow of William J. Hanley, former commercial vice president of the General Electric Co. She died last Nov. 25 leaving no next of kin. An inventory of her estate showed assets of nearly \$900,000, including more than \$500,000 in GE stock.

## 3 Ohio Youths Eye Scholarships

WASHINGTON (AP)—Forty high school seniors—nine girls and 31 boys—today were named as finalists in the 18th annual nationwide Westinghouse science talent search.

Picked from a field of more than 28,000 as "the nation's most promising future scientists" among this year's seniors, the 40 finalists will compete for \$34,250 in scholarships and other awards.

This final competition will take place during a five-day science talent institute beginning Feb. 26 in Washington. Top honors will be announced March 2.

The finalists include Carl H. Schwalbe, Chillicothe, Ohio; Jeanne A. Zika, Cleveland and Kenneth E. Kloss, Loudonville, Ohio.

## Audrey Hepburn Injured in Fall

DURANGO, Mexico (AP)—Audrey Hepburn was reported today to have suffered a severe back injury when she was thrown from a horse on a movie location here. Unconfirmed reports said she may have suffered four broken vertebrae.

The accident occurred Wednesday while the actress was galloping a spirited, white Arabian stallion. The stallion stopped and the actress was thrown over the animal's head and was knocked unconscious. She was taken to a hospital but later moved to the house where she was staying.

She was making a scene in the Hecht-Lancaster production "Unforgotten."

## Jesus Questioned About Tribute

SCRIBES AND PHARISEES MARVEL AT HIS ANSWER

Scripture—Luke 20:9-26.

### By NEWMAN CAMPBELL

IT WAS Tuesday of Holy Week  
when the events of today's lesson  
took place. Jesus had pronounced  
the doom of the unbelieving  
Israel which rejected Him in the  
parable about the wicked hus-  
bandmen.—(Luke 20:9-18).

The chief priests and scribes  
were so angered by this that they

swered and said, Caesar's. And He  
said unto them, Render therefore  
unto Caesar the things which be  
Caesar's, and unto God the things  
which be God's."—Luke 20:23-25.

These spies who had been  
ordered to take note of His words  
and report them to His enemies  
"marveled at His answer, and  
held their peace."—Luke 20:26.

In his comments on our lesson  
titled "A Truth for the Classes  
to Carry Away," Dr. Wilbur M.  
Smith writes: "There is one dif-  
ference between rendering unto  
Caesar and rendering unto God  
that I do not see mentioned in the  
commentaries, and thought would  
be a good conclusion to the les-  
son. We render unto the govern-  
ment by compulsion, we cannot  
escape doing so, and if we neglect  
doing so, officers of the law are

"I don't want the institute to be  
a precious little picture gallery,"  
he declared. "It should be some-  
thing useful. Art is not something  
precious to be put away and  
guarded; it's a thing to be used  
and enjoyed by everyone."

He's pleased, for example that  
classes in painting, sketching,  
sculpture, ceramics and photo-  
graphy attract many to the insti-  
tute. But if the individual comes  
because it's the fashionable thing  
to do, and not because of an  
awakened interest in these crea-  
tive outlets, Dietz feels the whole  
purpose is lost.

It's hard to tell whether he is  
more thrilled over the gift of a  
valuable painting to the institute  
or the fact that a little old lady  
has overcome self-consciousness  
and turned into an avid painter.  
It's easy to sense his excitement  
and satisfaction when he talks  
about both.

Dietz has tried to reach all age  
and interest groups in his work  
at the institute. More than 2,000  
public and parochial school pupils  
visit the institute annually for  
tours that take up to two hours.

Dietz explains the institute's his-  
tory, relates the background of  
paintings and other exhibits, out-  
lines the institute's activities, and  
answers hundreds of questions.  
"Their questions are very in-  
telligent," he adds.

A special feature is the insti-  
tute's collection of children's art,  
started about four years ago. In-

'WHO AM I?' is the question  
being asked by this lad, about  
17, with a New York accent  
and a ring bearing initials  
"J.F." He's in Scranton, Pa.,  
state hospital, where he was  
admitted two weeks before  
after he wandered into St.  
Peter's rectory. The lad is  
blond, slim, 5-feet-6, 110 pounds.

## 3 Ohio Youths Eye Scholarships

WASHINGTON (AP)—Forty  
high school seniors—nine girls and  
31 boys—today were named as fi-  
nalists in the 18th annual nation-  
wide Westinghouse science talent  
search.

Picked from a field of more than  
28,000 as "the nation's most prom-  
ising future scientists" among this  
year's seniors, the 40 finalists will  
compete for \$34,250 in scholarships  
and other awards.

This final competition will take  
place during a five-day science  
talent institute beginning Feb. 28  
in Washington. Top honors will be  
announced March 2.

The finalists include Carl H.  
Schwalbe, Chillicothe, Ohio;  
Jeanne A. Zika, Cleveland and  
Kenneth E. Kloss, Loudonville,  
Ohio.

## Audrey Hepburn Injured in Fall

DURANGO, Mexico (AP)—Au-  
drey Hepburn was reported today  
to have suffered a severe back  
injury when she was thrown from  
a horse on a movie location here.  
Unconfirmed reports said she may  
have suffered four broken vertebrae.

The accident occurred Wednes-  
day while the actress was gallop-  
ing a spirited, white Arabian stall-  
ion. The stallion stopped and the  
actress was thrown over the an-  
imal's head and was knocked un-  
conscious. She was taken to a hos-  
pital but later moved to the house  
where she was staying.

She was making a scene in the  
Hecht-Lancaster production "Un-  
forgotten."

## America's Greatest Thief

U. S. economists and economic statisticians have organizations which held a joint meeting in Chicago the other day and had a go at the problem of inflation. Points of view of management and labor were expressed, but others looked straight down the middle for a solution to what is the leading domestic problem in most of the nations of the world.

Dr. Gabriel Hauge, former Eisenhower aide, said Americans have been trying to overpay themselves for what they produce and that there is a sore need for more light on the wage-cost-price-profit sequence. A New York banker put all the blame on "large and costly wage demands" which force prices up.

But one of the AFL-CIO economists disputed that point of view. He held that most wage-price increases were the result of special circumstances, such as craft

conditions, instead of union-won wage increases.

Other speakers gravitated between these two poles. No determination was made as to which came first, higher wages or inflation.

Prof. Gardner Ackley of the University of Michigan asserted that both administered higher wages and higher prices played important roles and that monetary and fiscal policies were of limited value in combating inflation.

It would be of advantage to the national welfare if the economists began to make up their minds. They all know that inflation is America's greatest thief, constantly eroding the buying power of income. Until recently most of them have assumed that a little inflation is a good thing as a stimulant to keep boom times going. Now more and more of them are concluding that the medicine is only a slow poison.

## Square Deal for Bonds

At the American Cattlemen's Association convention in Omaha Richard W. Robbins, a Kansas cattleman, introduced an interesting and significant resolution which dramatized the inflation menace.

Holders of \$42 billion of U. S. Savings Bonds, said Robbins, have lost over 50 per cent of their savings in buying power. This failure to protect patriotic citizens stands as "a shocking indictment of the fiscal integrity of our government." Most of these bondholders are those who can least afford to be wiped out, especially by the policy of a government they trusted.

To get remedial action Robbins proposed that sale of Savings Bonds be suspended until cost of living stability is achieved, or that Savings Bonds issued after February

1 carry an escalator clause on principal and interest to give the holders returns adequate to meet further increases in the cost of living.

Just how does the government propose to stop the outflow of printing press money from the central banking system unless it stabilizes the cost of living or guarantees patriotic citizens a square deal for their bonds?

## Is Film Star Pay Too High?

By Hal Boyle

NEW YORK (AP)—Is any film star worth a half a million to a million dollars a picture, plus a share of its profits?

In a rare bit of public breast-beating, producer Sam Goldwyn last week declared exorbitant salary demands by actors were "the chief danger" facing the movie industry.

There came a rebuttal from Otto Preminger, one of the most successful independent producers of the last decade.

"It's the wrong thing to cry in public about stars asking for too much money," Preminger said.

"In a free competitive society, anyone is privileged to ask anything he wants for his services. But if you don't want to pay them, you don't have to."

"If I find an actor asks too much, I simply don't employ him. I find somebody else."

"Is any actor worth a million dollars a picture? You can't generalize. He might be worth more than a million dollars—if his services are truly unique—or he might be worth less than nothing. The public really decides that question at the boxoffice."

Preminger said producers themselves were largely to blame for the present high salary demands of actors.

"This all started by bribery," he declared cryptically. "It resulted from producers persuading actors to play in scripts the actors really didn't want any part of. The only way the producers could get them to was to pay them more and more money."

As a producer, Preminger sometimes is a bit on the daring side when it comes to casting. One gamble he feels sure will pay off is the hiring of Boston lawyer Jo-

seph N. Welch, star of the Army-McCarthy hearings in 1954, to play the judge in his latest film.

Preminger feels the motion picture industry is undergoing a long-range change that will ultimately improve it.

"I don't think television has hurt motion pictures," he said. "We have had only a temporary setback. Television will face the problem of becoming a secondary advertising medium rather than a first-rate entertainment medium."

"Pay television will come, and when it comes it will be a good thing. Meanwhile the showing of old pictures on TV has made it necessary for us to compete against what we did before. This merely forces us to be better than we were, and growth is good for anybody."

## The Legion of Freedom

By George Sokolsky

The great editors and reporters of this country asked for no immunities and no protections. They took their chances and assumed their responsibilities. I am writing of such reporters as Lincoln Steffens, Charles Edward Russell, Samuel Blythe, Floyd Gibbons, Frank Ward O'Malley, H. L. Mencken, Mark Sullivan, and such publishers as William Randolph Hearst, Joseph Pulitzer, William Allen White, Joseph Medill Patterson—their number is legion in the story of freedom in the United States. These are just names that come to mind, but a little research would fill this column three or four times over with heroic publishers and editors and reporters, long before there was any such thing as a Pulitzer Prize or any other gold stars for good conduct.

There was no fear among these men and women. And they wanted no immunity from the law. Journalism was a great art and profession in those days and one that paid badly.

Nowadays news is also handled as a part of theatrical business and the manner and tone are different. Television and radio are not newspapers and few men with real newspaper experience have made brilliant careers on these devices, although Hans Kaltenborn, a brilliant reporter and editor, was undoubtedly the greatest reporter on radio.

Edward R. Murrow, who recently attained a new fame as an expert on vice and its relationship to business, has never been a newspaperman. Whatever relationship he has had to news has been with radio and television and as that is show-business

rather than journalism, his discipline and training have been different from that of a reporter. Also, as all his work is ephemeral, passing swiftly into the air, he never had the sad experience of having his errors blue-penciled the next morning with an unmistakable warning from the managing editor that there was no shortage of applicants for jobs.

In fact, Murrow's career started with Professor Stephen P. Duggan's Institute of International Education, an endowed agency for the exchange of students. Murrow left the Institute to join the Columbia Broadcasting System as director of talks and education and from that he moved into news.

It is not important that Ed Murrow chooses to be regarded as an expert news gatherer. The fact is that he is not a newspaperman and cannot be recognized as one. From any standpoint he is an actor, a profession to which some fine people admit that they belong. The theater is great art, but play-acting is not journalism.

Although it has recently become fashionable for some younger newspapermen to ask for immunity from responsibility, it is not customary in this trade. A newspaper is a responsible business, subject to law. It can be sued for libel; it can be punished for being salacious or malicious. Libel, in very simple language, means lying or defaming and decent newspapermen avoid both. They check their material and their sources and although bias and errors do creep in, the writer does not dodge responsibility.

However, when a topnotch reporter, such as Westbrook Pegler, discovers a crook, a swindler, a faker, he will go after him. Sometimes such reporting leads to libel suits, the judge and jury taking another view of the matter, but among strong men the libel suit was ignored as contemptible. If the reporter told the truth, however, today juries grant such ridiculous sums for what they call libels that newspaper owners are frightened and the reporters fear too.

As regards radio and television, the whole matter is com-

plicated by the method of organizing the job. As it is a theatrical performance, the man who speaks the words may not have written them. The words usually come from a word factory. If the show is owned by the broadcasting company, there may be some responsibility; if it is owned by an agency or a producing company, the direct responsibility may be very remote.

The fellow who wrote the words may not have gathered the facts. Murrow, for instance, in his vice show, has admitted that he neither gathered the facts nor wrote the words; he was the narrator, like Charles Laughton reading the Bible parts of which were written several thousand years ago.

Before radio and television are entitled to immunity from the law, they need to learn something about responsibility under the law.

A STOCK BROKER with very questionable ethics talked an untitled sucker into buying five thousand shares of a phony oil stock at 50 cents a share.

A week later the broker reported, "You're lucky! That stock just doubled in price!" "Buy me another five thousand," ordered the sucker.

A few days later the broker was on the phone again. "That stock's going wild," he exulted. "It just hit \$2 a share!"

"That's enough for me," decided the sucker. "Sell all I've got at the market price." "Sell?" echoed the broker in amazement. "To whom?"

An agent was trying to persuade a night club impresario to give his new client a break. "Why, she's another Marilyn Monroe," he said—then felt constrained to add, "She don't look like her, I admit—but you ought to see how she reads Dostoyevsky!"

## College's Responsibility To Town Library Pondered

COLUMBUS, Ohio (AP)—When a college comes to town, should it bring its own library? Or should it rely on library facilities already existing in the community?

The Ohio Library Assn. thinks it'll take a \$39,000, year-and-a-half study to find out in Ohio alone.

The problem is related to increasing rates of birth and college enrollment in Ohio. The trend to branch and junior colleges and other post-high school educational programs in the home community means an increasing need for library facilities, the association claims.

"In a way," says State Librarian Walter Brahm, "it's like Christmas vacation, when many of the college students home for the holidays go to the local library to complete assignments. The increase in patronage is generally very noticeable."

"In no prophet, but it appears the state-supported universities will be involved more and more heavily in establishing branch programs—and already are in many cases."

As proposed by the Ohio Library Assn., a study would try to determine whether the educational program should give financial help to the local library, set up its own library, or meet the problem in some other way.

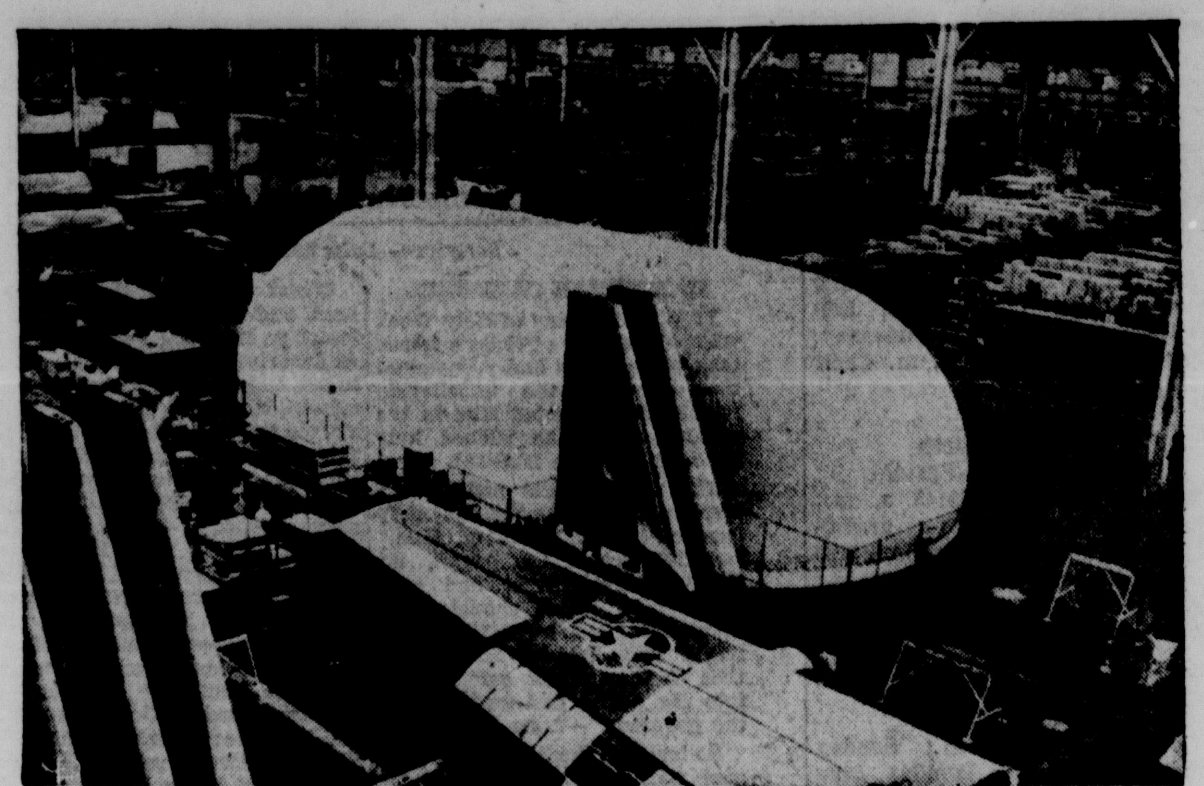

The association thinks it may be able to get the money for a study from the U.S. Office of Education, possibly by having the federal agency make a grant to the school of library science at Western Reserve University in Cleveland.

In its report to the governor last month, the Ohio Commission on Education Beyond the High School recommended that Ohio's colleges and universities set up a central depository library serving all. Dr. Howard F. Lowry, president of the College of Wooster and a commission member, has suggested that—among smaller colleges especially—such a centralized collection would be a financial aid and solve the problem of storage space for books.

Washington (AP)—Rep. Thomas L. Ashley (D-Ohio) has recommended that the government reduce or discontinue federal establishments in states "which have abandoned their public school systems." Speaking principally of the Norfolk, Va., area, where school integration is a problem, he wrote Secretary of Defense McElroy Wednesday that "to continue to send service families or federal employees to states which... have closed down their public schools systems is to undermine the morale of our armed service."

## The World Today

By James Marlow

WASHINGTON (AP)—Two major proposals for a new labor law—it would be the first in 12 years—have been dumped into Congress' lap. Any chance for such a law? Yes and no.

It's an old story, an old argument: Should anticorruption proposals be combined in the same bill with proposals to prohibit certain kinds of union pressure on employers and employees? Or should they be handled separately?

The Eisenhower administration and Sen. John F. Kennedy (D-Mass.) have both offered bills calling for strict accounting of union funds and measures intended to give rank-and-file union members more control of union affairs. Both hit hard at bribery and collusion between employers and union agents or middlemen fixers.

The AFL-CIO has pretty much endorsed that kind of legislation. But the Eisenhower proposal goes farther than the Kennedy bill to this extent: It would prohibit certain practices by unions to pressure employers and employees

into recognizing them as bargaining agents.

For example: The Eisenhower bill calls for tight new bans on union secondary boycotts and certain forms of union picketing.

In a secondary boycott an employer not directly involved in a labor-management dispute is pressured by a union in such a way as to force concessions from an employer who is involved.

The Eisenhower bill also would bar union picketing where another union already holds bargaining rights or where employees show they don't want to be represented by the picketing union.

Both Kennedy and the AFL-CIO have said that mixing boycott and picketing restrictions with anticorruption remedies would endanger the chance of getting any labor legislation this year.

The Kennedy bill—and those parts of the Eisenhower bill which resemble it—is similar to the Kennedy-Ives bill which passed the Senate 88-1 last year but died in the House. Former Sen. Irving Ives (R-N.Y.) and Kennedy sponsored it.

But Eisenhower is expected to insist, as he did in 1958, that any bill passed by Congress should

contain boycott and picketing provisions.

Sen. John McClellan (D-Ark.), chairman of the Senate Rackets Investigating Committee, is preparing labor legislation of his own.

Kennedy argues the reason for no labor legislation since passage of the Taft-Hartley Act in 1947 is "that every time a bill was brought out, an effort was made to do too much."

Neither the Eisenhower proposal nor the Kennedy bill contains anything that might be generally considered as tending to hamstring unions.

A STOCK BROKER with very questionable ethics talked an untitled sucker into buying five thousand shares of a phony oil stock at 50 cents a share.

A week later the broker reported, "You're lucky! That stock just doubled in price!" "Buy me another five thousand," ordered the sucker.

A few days later the broker was on the phone again. "That stock's going wild," he exulted. "It just hit \$2 a share!"

"That's enough for me," decided the sucker. "Sell all I've got at the market price." "Sell?" echoed the broker in amazement. "To whom?"

An agent was trying to persuade a night club impresario to give his new client a break. "Why, she's another Marilyn Monroe," he said—then felt constrained to add, "She don't look like her, I admit—but you ought to see how she reads Dostoyevsky!"

## College's Responsibility To Town Library Pondered

COLUMBUS, Ohio (AP)—When a college comes to town, should it bring its own library? Or should it rely on library facilities already existing in the community?

The Ohio Library Assn. thinks it'll take a \$39,000, year-and-a-half study to find out in Ohio alone.

The problem is related to increasing rates of birth and college enrollment in Ohio. The trend to branch and junior colleges and other post-high school educational programs in the home community means an increasing need for library facilities, the association claims.

"In a way," says State Librarian Walter Brahm, "it's like Christmas vacation, when many of the college students home for the holidays go to the local library to complete assignments. The increase in patronage is generally very noticeable."

"Im no prophet, but it appears the state-supported universities will be involved more and more heavily in establishing branch programs—and already are in many cases."

As proposed by the Ohio Library Assn., a study would try to determine whether the educational program should give financial help to the local library, set up its own library, or meet the problem in some other way.

The association thinks it may be able to get the money for a study from the U. S. Office of Education, possibly by having the federal agency make a grant to the school of library science at Western Reserve University in Cleveland.

In its report to the governor last month, the Ohio Commission on Education Beyond the High School recommended that Ohio's colleges and universities set up a central depository library serving all. Dr. Howard F. Lowry, president of the College of Wooster and a commission member, has suggested that—among smaller colleges especially—such a centralized collection would be a financial aid and solve the problem of storage space for books.

WASHINGTON (AP)—Rep. Thomas L. Ashley (D-Ohio) has recommended that the government reduce or discontinue federal establishments in states "which have abandoned their public school systems." Speaking principally of the Norfolk, Va., area, where school integration is a problem, he wrote Secretary of Defense McElroy Wednesday that "to continue to send service families or federal employees to states which... have closed down their public schools systems is to undermine the morale of our armed service."

## February Due To Show Trend Of Big Issues

### Behavior of Labor, Stock Mart To Be Watched Next Month

By SAM DAWSON  
AP Business News Analyst  
NEW YORK (AP) — January has seen many of the pressing issues of the day coming to a head. February should see some of them showing how much speed they can pack.

The stock market seems ready for a testing. The talk about coming labor strife is leading purchasing agents to take a new look at inventories. Bankers and the nation's money managers are talking more about when and if interest rates will rise further.

How long living costs can be kept from going up again because stable food prices have offset other expenses becomes a moot question.

February may give an indication of what congressional spending may do to federal tax prospects, and how much higher state and local taxes may go.

Business also thinks that the course of international affairs may become clear shortly.

The stock market has risen to new heights but has shown more and more cross currents, more susceptible to quick sinking spells and sudden hard-to-explain upward surges. Professional stock analysts are getting more cagey in their predictions.

Money matters seem to be coming to a boil, too. The battles in Congress and in state legislatures and in city councils over spending more and raising taxes will make most of the headlines on this subject in February.

In financial circles there will be quieter discussions about tight money and easy money, about raising of interest rates once the upcoming Treasury refunding problems are out of the way, about a possible new onslaught of inflation.

In family circles there'll be debates about what to do about the cost of living. Many families will find their taxes going up. These days taxes are just as much a cost of living as are the more familiar ones of food and clothing and shelter.

## Here Are Highlights Slated In Next Week on Television

By CHARLES MERCER

NEW YORK (AP)—In a great diversity of entertainment on the television set in the coming week there is an interesting emphasis on a variety of music and dancing among other things.

Twist the dial among the principal networks and you'll find:

Friday night on ABC "Walt Disney Presents" a combination of stereophonic sound with live actors and animated cartoons telling "The Peter Tchaikovsky Story." The story follows the composer through his early disappointments to his first success, "The Sleeping Beauty." The Bolshoi Theatre Ballet of Moscow is featured.

To enjoy stereophonic sound place AM and FM radios about 10 feet on either side of your TV set and tune them to your ABC network station. The quality of tone will amaze you.

Sunday afternoon "Omnibus" reissues on NBC what I, personally, think is the finest film yet made on the life of Abraham Lincoln. Written by the late James Agee, "Abraham Lincoln: The Early Years" was filmed in back-country Kentucky and in Salem, Ill. It conveys the atmosphere of Lincoln's times, and the funeral train sequence is a moving classic. You shouldn't miss it.

"The Second Agony of Atlanta" follows on NBC. It is an NBC News filmed study of the crisis in Atlanta public schools.

Ed Sullivan offers a filmed repeat of his last summer's show featuring the Russian Moiseyev Dance Company on CBS Sunday night. Later on NBC the focus on dance and music shifts to another part of the world when a group of 13 Japanese entertainers will be seen in the Dinah Shore Show spot. Shirley MacLaine substitutes for Miss Shore as hostess.

At the same hour on CBS "G.E. Theater" presents the first half-hour original TV musical in many years. Gisele MacKenzie, John Raitt and Eddie Foy Jr., are starred in "No Man Can Tame Me."

ABC's monthly reissue of "Shirley Temple's Storybook" offerings will be "Rip Van Winkle" Monday night. This is a good one, if you missed it in the original series.

### 32 Surplus Employees Cut Off State Staff

COLUMBUS, Ohio (AP)—Gov. Michael V. DiSalle's promise to eliminate surplus state employees is being carried out. Nine employees were cut Thursday from the Highway Department's Personnel Bureau and 23 others from the Welfare Department's Division of Aid to the Aged. Officials said the salary savings in both departments will amount to an estimated \$132,000 a year.

## Radiocaster Denied Rights Of Newsmen

COLUMBUS, Ohio (AP)—A radio or television newscaster may not refuse to answer questions regarding his source of news, Common Pleas Judge Kenneth L. Sater ruled Thursday.

Sater held that immunity provided by state law extends only to newsmen employed by a newspaper or press association.

The judge's decision was on a motion in the \$300,000 defamation of character suit brought against Bert L. Charles, WKIO radio newscaster and station manager, by William C. Jorgensen, former Columbus radio and television newscaster.

Charles refused to answer seven questions asked him by Jorgensen's attorney. Jorgensen filed a motion asking that the court require answers from Charles. Charles claimed a newsmen's privilege of immunity under state law.

In overruling Charles' answer, Judge Sater asserts the law "does not relate to or protect broadcasts, telecasts or those participating therewith."

The judge said the statute protects only a "person engaged in the work of, or connected with, or employed by any newspaper or any press association for the purpose of compiling, editing, disseminating or publishing news."

Later on NBC the focus on dance and music shifts to another part of the world when a group of 13 Japanese entertainers will be seen in the Dinah Shore Show spot. Shirley MacLaine substitutes for Miss Shore as hostess.

At the same hour on CBS "G.E. Theater" presents the first half-hour original TV musical in many years. Gisele MacKenzie, John Raitt and Eddie Foy Jr., are starred in "No Man Can Tame Me."

ABC's monthly reissue of "Shirley Temple's Storybook" offerings will be "Rip Van Winkle" Monday night. This is a good one, if you missed it in the original series.

Later on ABC "Voice of Firestone" offers an all-Puccini program with Renata Tebaldi as guest star.

On CBS Monday night "Desilu Playhouse" will present what could be a better show than its run-of-the-mill. Ernie Kovacs starring in "Symbol of Authority," about a proof-reader who gains temporary distinction in the medical world.

"Armstrong Circle Theater" has a one-hour dramatization of "Miracle at Springhill Mine" on CBS Wednesday night. It is based on actual events surrounding the Nova Scotia mine disaster of last October.

"Berkeley Square" is the presentation of "Hallmark Hall of Fame" on NBC Thursday night. John Kerr, Jeannie Carson, Edna Best and Janet Munro are starred in the British drama about a young American who inherits an old London house and finds himself caught up in the past and love for an 18th century woman.

Friday night Edward R. Murrow has a "Person to Person" visit on CBS with Cuban rebel leader Fidel Castro and his 9-year-old son in their new quarters in the Havana Hilton Hotel. It will be Castro's first live television appearance talking to an American audience. The other guest will be illustrator Norman Rockwell from his Stockbridge, Mass., home.

### 32 Surplus Employees Cut Off State Staff

COLUMBUS, Ohio (AP)—Gov. Michael V. DiSalle's promise to eliminate surplus state employees is being carried out. Nine employees were cut Thursday from the Highway Department's Personnel Bureau and 23 others from the Welfare Department's Division of Aid to the Aged. Officials said the salary savings in both departments will amount to an estimated \$132,000 a year.

## Radiocaster Denied Rights Of Newsmen

COLUMBUS, Ohio (AP)—A radio or television newscaster may not refuse to answer questions regarding his source of news, Common Pleas Judge Kenneth L. Sater ruled Thursday.

Sater held that immunity provided by state law extends only to newsmen employed by a newspaper or press association.

The judge's decision was on a motion in the \$300,000 defamation of character suit brought against Bert L. Charles, WKVO radio newscaster and station manager, by William C. Jorgensen, former Columbus radio and television newscaster.

Charles refused to answer seven questions asked him by Jorgensen's attorney. Jorgensen filed a motion asking that the court require answers from Charles. Charles claimed a newsmen's privilege of immunity under state law.

In overruling Charles' answer, Judge Sater asserts the law "does not relate to or protect broadcasts, telecasts or those participating therewith."

The judge said the statute protects only a "person engaged in the work of, or connected with, or employed by any newspaper or any press association for the purpose of compiling, editing, disseminating or publishing news."

### 'A Trip to Hawaii' Program For Circleville Garden Club

Mrs. Orin King, W. High St., entertained members of the Circleville Garden Club Wednesday evening. A program of colored slides, "A Trip to Hawaii," was presented by Mrs. Stanley Croman and Miss Betty McCoy.

Mrs. Croman narrated the journey starting with their departure from Circleville commenting on the spots of interest encountered as they crossed the United States by train to California. Several days were spent sight seeing in San Francisco, where they later boarded the steamer, Matsonia, for Hawaii.

Beautifully colored slides showed the true to life beauty of flowers and other vegetation of the Islands. The Croman's visited such famous resorts as Waikiki Beach, the Rain Forest, Don the Beachcomber, the Dole Pineapple Plantation and some volcanic sights.

Mrs. Elmer Wolf read several selections from the "Garden Path" including the "Audubon Physiol-

ogy." Mrs. Leslie Pontius related a true story concerning the feeding of birds.

Mrs. Channing Vlerebome had a display of new seed and nursery catalogues.

An invitation to participate in the Columbus Home and Garden Show of February 28-March 8, was read by Floyd Bartley, president.

Arrangements were displayed by Mrs. Nat Lefko and Mrs. George Lawson.

At the close of the meeting, refreshments were served to 22 members and six guests.

The guests were: Mrs. Croman, Miss McCoy, Mrs. R. S. Denman, Mrs. Kathryn Huffer, Mrs. Lucile Woods and Harry Kern.

### Youth Shoots 2 Patrolmen Frisking Pal

ENGLEWOOD, N.J. (AP) — A youth shot and wounded two patrolmen here Thursday night while the officers were questioning his companion.

One of the patrolmen was in a critical condition at Englewood Hospital today.

The shooting touched off a large-scale manhunt for the two youths, described as about 21 years old. More than 200 policemen fanned out in a wooded area here, conducted a house-to-house search, and set up roadblocks as far north as Orange County, N. Y.

Patrolman Gerald Wisniewski, 27, a father whose wife is expecting a second child, was felled with bullets in the abdomen, left arm, and left cheek.

Wisniewski underwent emergency surgery and has received the last rites of the Roman Catholic Church.

His partner, Patrolman Edward Skold, 29, was shot once in the arm and was also taken to Englewood Hospital. Officials there said the condition of the father of two was not serious.

Wisniewski and Skold had just gone on patrol when they spotted the two youths walking on tree-lined South Woodland Avenue, a fashionable area dotted with mansions valued at \$50,000 and up.

The officers stopped the two, and Skold started frisking one of the youths.

The other youth stood by while Skold searched his companion. Suddenly, he whipped out a .22 caliber revolver and fired.

### Sandusky Man Named State Fire Marshal

COLUMBUS, Ohio (AP) — Sandusky Fire Chief William M. McLaughlin will become state fire marshal Feb. 1.

Gov. Michael V. DiSalle announced the appointment Thursday. McLaughlin will succeed Elmer Stough of Lorain.

McLaughlin has been fire chief in Sandusky since 1937 and last year was designated outstanding man of the year by the Sandusky Junior Chamber of Commerce.

His starting salary is \$720 a month.

## Pickaway Grange Report

WASHINGTON GRANGE Washington Grange met last week in regular session with Worthy Master Nelson Stevens in charge.

During the business meeting an appeal for aid was answered. The chairman of the Home Economics Committee, Mrs. Mary

Valentine, announced that at Christmas each lady resident of the Pickaway County Home was given an apron and each man received socks. Candy and cookies were also given to each one.

The Home Economics Committee also has cook books to sell to aid the Student Aid Fund.

The program in charge of the Worthy Lecturer, Weta Mae Leist, consisted of group singing of songs written by Stephen Foster; a reading "If Everyone Were Like Me" by Mrs. Carrol Stevens; a reading "Early Printing" by Ralph DeLong and a contest with all present participating.

Refreshments were served by Mr. and Mrs. Loring Leist, Mr. and Mrs. George Hamrick and Mr. and Mrs. George Wharton.

The next regular meeting will be held at 6:30 p. m. tomorrow with a covered-dish dinner preceding the meeting. Meat, rolls and coffee will be furnished by the Home Economics Committee.

The general meeting of the Woman's Society of Christian Service of the First Methodist Church will be held from 1:30 p. m. Wednesday in the church social rooms.

The feature of the meeting will be a dessert luncheon. A nursery will be provided for the small children.

## House Page Boy Dispute Still Unsolved

WASHINGTON (AP) — Capitol officials questioned today whether even the creation of an additional House page boy job would open to James A. Johnson Jr. the position he thought he had.

Johnson, 14, is the Chicago Negro who came here to take the job only to find it already filled.

Reps. Barratt O'Hara (D-Ill.) and James Roosevelt (D-Calif.) said they would seek to increase the number of House pages from 50 to 51 to make room for Johnson.

They broached the idea to Rep. Francis E. Walter (D-Pa.), chairman of the House Patronage Committee, but he was reported to the suggestion on the ground that at least 15 prior applicants are waiting for the first opening.

Walter had told newsmen earlier that Johnson had never been appointed to the job and that the only opening for the Chicago area had been filled.

O'Hara, who had recommended Johnson for the job, explained the mix-up as a case of mistaken identity. He said the Patronage Committee had thought he and Rep. Thomas J. O'Brien (D-Ill.) were nominating the same boy. O'Brien's nominee, Martin J. Oberman of Chicago, got the job.

If Johnson had got the job, he would have been the first Negro congressional page in the memory of veteran Capitol employees, but all the congressional parties involved denied there was any tinge of racial bias in the affair.

## Woman Wins Lawsuit, But Collection Doubtful

FINDLAY, Ohio (AP) — A Findlay woman has won a \$50,000 verdict in a personal injury traffic case. But the chances are she'll never collect a penny.

Mrs. Margaret Beals filed the suit in 1956 against Francis L. Plaisetty of Bayside, N. J., as the result of injuries she received in an auto accident in 1954. A common pleas jury returned the \$50,000 verdict.

The only trouble, court officials said, is that Plaisetty reportedly returned to his native France after the accident.

## Floods Fail To Hike Ohio Animal Diseases

COLUMBUS, Ohio (AP) — There has been no apparent increase in farm animal disease because of recent floods, the chief of the State Agriculture Department's animal industry division says.

Dr. H. G. Geyer said no diseases have been reported that could have been attributed to the flood. If there had been an important outbreak of any kind, he said, veterinarians would have immediately notified the division.

## Dear Abby...

By Abigail VanBuren

### Huntress, Drop that Scent

DEAR ABBY: I have been in love with a man for six years, but I feel cheap because he has never actually asked me out. We have spent a lot of time together but it has been all my doing. I manage to "accidentally" turn up where I

know he will be. I have invited him over to my apartment and have asked him to be my escort to places I am invited. But, Abby, what gets me is that he always accepts, and seems to enjoy my company. He doesn't go with anybody else. WHY doesn't he ask me out? Am I making a fool out of myself or not? How can I get this man?

DISCOURAGED: After six years, he knows it is no "accident" that you "turn up" wherever he is. If he had any serious intentions, he would have expressed them by now. Drop the scent. You'll never trap him while he is still young enough to run.

DEAR ABBY: I have been married for almost a year and my husband's snoring keeps getting worse and worse. What causes it? He never snored a bit before we were married. Thank you.

CAN'T SLEEP: DEAR ABBY: Better have him see a doctor. Maybe he has ALWAYS snored but you've never noticed it.

DEAR ABBY: My husband recently passed away after 28 years of philandering, lying and heavy drinking. My old sweetheart that I gave the brush-off to 30 years ago called on me. His wife passed away 8 years ago. Before he was in the house 10 minutes he was begging me to marry him. He said he never stopped loving me. His character is beyond reproach, which is more than I can say for myself. He is a loyal church-goer and a high degree member of his lodge. I told him everything and he said, "Let me cast the first stone." Then the big dope put his arms around me and almost cracked my ribs. Do you think it is too late for me to turn over a new leaf and make this man happy?

SINNED: DEAR ABBY: Of course you can make him happy. You have a winning combination: Humility, honesty, and the willingness to do better. Good luck!

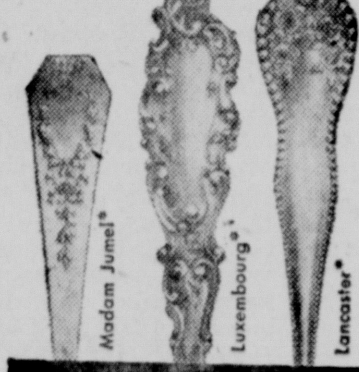

CONFIDENTIAL TO G. G.: You can't throw mud without getting a little on yourself. Skip it!

For a personal reply, write to ABBY in care of this paper. Enclose a self-addressed, stamped envelope.

Woman Wins Lawsuit, But Collection Doubtful

FINDLAY, Ohio (AP) — A Findlay woman has won a \$50,000 verdict in a personal injury traffic case. But the chances are she'll never collect a penny.

Mrs. Margaret Beals filed the suit in 1956 against Francis L. Plaisetty of Bayside, N. J., as the result of injuries she received in an auto accident in 1954. A common pleas jury returned the \$50,000 verdict.

The only trouble, court officials said, is that Plaisetty reportedly returned to his native France after the accident.

Floods Fail To Hike Ohio Animal Diseases

COLUMBUS, Ohio (AP) — There has been no apparent increase in farm animal disease because of recent floods, the chief of the State Agriculture Department's animal industry division says.

Dr. H. G. Geyer said no diseases have been reported that could have been attributed to the flood. If there had been an important outbreak of any kind, he said, veterinarians would have immediately notified the division.

## Dear Abby...

By Abigail VanBuren

### Huntress, Drop that Scent

DEAR ABBY: I have been in love with a man for six years, but I feel cheap because he has never actually asked me out. We have spent a lot of time together but it has been all my doing. I manage to "accidentally" turn up where I

know he will be. I have invited him over to my apartment and have asked him to be my escort to places I am invited. But, Abby, what gets me is that he always accepts, and seems to enjoy my company. He doesn't go with anybody else. WHY doesn't he ask me out? Am I making a fool out of myself or not? How can I get this man? DISCOURAGED

## Heavyweight Bout Assured

### Patterson To Defend Title Against Swede

NEW YORK (AP) — The "secret" finally is out. Heavyweight Champion Floyd Patterson is going to fight Sweden's Ingemar Johansson. Best guess on the site and date is New York or Los Angeles in June or September.

Some 10 days ago promoter Bill Rosenzohn said the match was "90 per cent made." A week ago it was all set but the signing. After prolonged negotiations by a staff of legal brains, the two warriors finally signed Thursday in the shadow of the smorgasbord at a Swedish restaurant.

But the mystery isn't over yet. The date and site will be named within 30 days. At the moment, Rosenzohn says New York and Los Angeles are the winter book favorites, with Colorado Springs a strong third. He can stage the bout anytime between now and Sept. 30.

Within the next week or two Rosenzohn will visit Philadelphia, Minneapolis, Indianapolis, Colorado Springs and Los Angeles. First he will meet with Mayor Wagner of New York Feb. 3.

There is one slight problem, as far as Rosenzohn is concerned. The contract permits Patterson to take another fight before Johansson. There is no such thing as a nontitle bout for a heavyweight champ.

Cus D'Amato, Patterson's manager, won't say yes and he won't say no. The best he will say is: "Floyd will have a sharper one way or another." That could mean an April match with someone like Brian London as promoter Harry Levene of London has been trying to arrange. Or it could mean one of Cus' secret fights in the gym.

## Northwestern Takes Aim at Spartan '5'

By THE ASSOCIATED PRESS  
Northwestern's attempt to knock off league-leading Michigan State highlights a round of four Big Ten basketball games Saturday.

The Spartans will have the advantage of their home floor in trying to expand a 4-1 conference mark. Northwestern broke a three-game losing streak in topping Iowa 99-96 last week and now has a 3-3 record.

In other games, Illinois (3-2) is at Purdue (2-3), Michigan (3-1) at Iowa (2-4) and Minnesota (2-1) at Ohio State (2-4) for an afternoon regionally televised contest.

Indiana is host to DePaul in a non-league game.

Northwestern expects limited service from Phil Warren, who was second in rebounding and third in scoring among the Wildcats before he suffered a fractured foot bone late in December.

MSU's balanced scoring is led by John Green who has a 20.4 average. The Spartans top the Big Ten in rebounding.

If MSU should falter, Michigan will have a chance to move into the lead. The Wolverines are second with only one loss in four starts and have a fine scoring punch with M. C. Burton, who has been averaging 22.2 and sophomore John Tidwell, with 20.5.

## Hayes, Paul Differ On 'Amateurism' In College Sports

HUNTINGTON, W. Va. (AP) — A strong plea for amateur athletics was issued here Thursday night by Ohio State University football coach Woody Hayes.

Hayes, differing sharply with General Manager Gabe Paul of the Cincinnati Redlegs, said you play professional athletics for money while you play college football for an education.

Paul and Hayes were principal speakers at the 14th annual victory awards dinner sponsored by the West Virginia Sports Writers Assn. to honor the state's top athletes and coaches of the year.

Paul earlier told some 400 persons at the gathering that there is no difference between professionalism and amateurism.

"College athletics would be a lot better, I think, if grant-in-aids were put on a professional basis. We would eliminate hypocrisy," Paul said.

## Younger Oldsters Tee Off in Test

DUNEDIN, Fla. (AP) — It was back to work for the "juniors" in the Professional Golf Assn. Seniors' Championship today as the 50-54 age group teed off for its second round over the National PGA course.

The youngsters could be fairly confident one of their number would be the new champion, barring the chance that one or two players of the 55-and-over field added two fine rounds to the two they already have played.

That a new champion will be crowned was conceded Thursday by the defending champion, Gene Sarazen, who blew himself a fat 77 for a 150 total.

# Heavyweight Bout Assured

## Patterson To Defend Title Against Swede

NEW YORK (AP) — The "secret" finally is out. Heavyweight Champion Floyd Patterson is going to fight Sweden's Ingemar Johansson. Best guess on the site and date is New York or Los Angeles in June or September.

Some 10 days ago promoter Bill Rosenzohn said the match was "90 per cent made." A week ago it was all set but the signing. After prolonged negotiations by a staff of legal brains, the two warriors finally signed Thursday in the shadow of the smorgasbord at a Swedish restaurant.

But the mystery isn't over yet. The date and site will be named within 30 days. At the moment, Rosenzohn says New York and Los Angeles are the winter book favorites, with Colorado Springs a strong third. He can stage the bout anytime between now and Sept. 30.

Within the next week or two Rosenzohn will visit Philadelphia, Minneapolis, Indianapolis, Colorado Springs and Los Angeles. First he will meet with Mayor Wagner of New York Feb. 3.

There is one slight problem, as far as Rosenzohn is concerned. The contract permits Patterson to take another fight before Johansson. There is no such thing as a nontitle bout for a heavyweight champion.

Cus D'Amato, Patterson's manager, won't say yes and he won't say no. The best he will say is "Floyd will have a sharper one way or another." That could mean an April match with someone like Brian London at promoter Harry Levene of London has been trying to arrange. Or it could mean one of Cus' secret fights in the gym.

# Northwestern Takes Aim at Spartan '5'

By THE ASSOCIATED PRESS

Northwestern's attempt to knock off league-leading Michigan State basketball games Saturday.

The Spartans will have the advantage of their home floor in trying to expand a 4-1 conference mark. Northwestern broke a three-game losing streak in topping Iowa 99-96 last week and now has a 3-3 record.

In other games, Illinois (3-2) is at Purdue (2-3), Michigan (3-1) at Iowa (2-4) and Minnesota (4-2) at Ohio State (2-4) for an afternoon regionally televised contest.

Indiana is host to DePaul in a non-league game.

Northwestern expects limited service from Phil Warren, who was second in rebounding and third in scoring among the Wildcats before he suffered a fractured foot bone late in December.

MSU's balanced scoring is led by John Green who has a 20.4 average. The Spartans top the Big Ten in rebounding.

If MSU should falter, Michigan will have a chance to move into the lead. The Wolverines are second with only one loss in four starts and have a fine scoring punch with M. C. Burton, who has been averaging 22.2 and sophomore John Tidwell, with 20.5.

# Hayes, Paul Differ On 'Amateurism' In College Sports

HUNTINGTON, W. Va. (AP) — A strong plea for amateur athletics was issued here Thursday night by Ohio State University football coach Woody Hayes.

Hayes, differing sharply with General Manager Gabe Paul of the Cincinnati Reds, said you play professional athletics for money while you play college football for an education.

Paul and Hayes were principal speakers at the 14th annual victory awards dinner sponsored by the West Virginia Sports Writers Assn. to honor the state's top athletes and coaches of the year.

Paul earlier told some 400 persons at the gathering that there is no difference between professionalism and amateurism.

"College athletics would be a lot better, I think, if grant-in-aids were put on a professional basis. We would eliminate hypocrisy," Paul said.

# Younger Oldsters Tee Off in Test

DUNEDIN, Fla. (AP) — It was back to work for the "juniors" in the Professional Golf Assn. Seniors' Championship today as the 50-54 age group teed off for its second round over the National PGA course.

The youngsters could be fairly confident one of their number would be the new champion, barring the chance that one or two players of the 55-and-over field adds two fine rounds to the two they already have played.

That a new champion will be crowned was conceded Thursday by the defending champion, Gene Sarazen, who blew himself a fat 77 for a 150 total.

## Doctor Sits In Jail after Killing Lawyer

EL PASO, Tex. (AP)—A gray, dignified-looking doctor sat in a jail cell today while arrangements were made for the funeral of the prominent attorney he shot down Wednesday.

Dr. Harold Eidinoff waited under a murder charge, without bond, as authorities tried to decide their next step. A year ago he had been adjudged insane. Three months later he was released.

Wednesday night Theodore Andress, 50, an El Paso attorney and president of the Texas Assn. of School Boards, waited with his wife for their luggage at El Paso's International Airport. They had just flown back from San Francisco.

A man walked up to Andress, pulled a pistol and fired. Andress fell. The man emptied the pistol at the fallen attorney, then threw the empty weapon at the body.

Police Lt. Al Hajar said Thursday Eidinoff had spoken readily of the shooting and blamed Andress for a long period of legal troubles, accusing Andress of showing nude photographs of Eidinoff and his first wife, taken on their honeymoon 22 years ago.

Eidinoff's second wife, Sylvia, filed for divorce in 1954, and authorities said photos of the doctor and his first wife were submitted as exhibits.

El Paso school children were excused today to attend services for Andress. He also was president of the El Paso Board of Education.

## Business Briefs

Walter P. Paepcke, chairman, reports Container Corporation of America earnings for the year ended December 31, 1958 were \$1.35 per share on the 10,512,864 shares of common stock outstanding compared with \$1.36 per share for the year 1957. Including Container's participation in profits of foreign corporations, the per share earnings increased to \$1.41 in 1958.

Consolidated earnings after taxes for 1958 were \$14,513,972 compared with \$14,589,692 in 1957. Net sales for the year amounted to \$259,271,078 compared with \$256,115,744 for the year before, a slight increase of 1.2 per cent.

Ronald Imler, Route 1, Kingston, an employee of the General Telephone Company of Ohio, recently attended a plant training school at the company's general offices in Marion.

Imler, an installer-repairman, was one of 12 specialists attending the technical five-day school on basic station installation and maintenance. This course was designed to teach the latest procedures and methods used in the maintenance of regular telephone instruments. Included in the schooling was special instruction on the principles of trouble clearance, ringing instruments, and other station apparatus.

A telephone employee for 12 years, Imler serves the communities of Circleville, Laurelville, Williamsport and Ashville. He was presented a certificate of award by the company after completing the 40-hour course.

Guy Boyer, Boyer Hardware Inc., 810 S. Court St., recently was appointed chairman of Pickaway County for The Ohio Hardware Assn. by H. Taylor Zettler of Columbus, Association President.

Boyer will attend the association's 65th annual convention at the Sheraton-Cleveland Hotel in Cleveland, February 8-11, where a special meeting will be held for all board members, past presidents, and county chairmen to discuss the association's program for the year. The convention is held in conjunction with the 1959 Hardware Industry Show, the largest in the country outside of New York City.

## FOP Praises Flood Volunteer Work

The local Fraternal Order of Police held a regular meeting Wednesday night in the lodge rooms at city hall.

The group of local policemen joined in a body to thank all the volunteers who helped with the many emergencies which cropped up here during the recent flood.

FOP members gave special praise to employees of the Columbus and Southern Ohio Electric Co. and the Ohio Fuel Gas Co. for their extra duty work while the flood waters raged here.

## Ashville News Report

By Mrs. Art Deal Jr.

The Ashville-Lockbourne Brotherhood banquet was held January 29 in the Ashville Lutheran Church with dinner being served by the Ladies Society of the church.

Over 120 attended to hear the guest speaker for the evening, Dr. H. R. Cotterman of Capital University, Columbus, Lewis Hay, president of the brotherhood, presided over the meeting. The guests heard remarks from Edwin Irwin, the Rev. Lullaby.

There will be a card party at the South Bloomfield School at 8 p. m. today sponsored by the PTO.

## Mr. and Mrs. Jerry Trego

Mr. and Mrs. Jerry Trego are parents of a son born January 20. The baby weighed 7 pounds 7 ounces and has been named Terry Melvin. The Tregos also have two daughters.

Robert Gruenberg has accepted a call to the Ashville Lutheran Church. He will graduate from Capital University Theological Seminary this month and plans to move here in the near future.

MR. AND MRS. Dale Puckett, Columbus, are the parents of an 8 pound 13 ounce baby girl born Monday, Jan. 26, in White Cross Hospital. Mr. and Mrs. Fred Puckett of Ashville are the paternal grandparents.

The Mothers March on Polio will be held tonight in Ashville. Miss Florence Brown, chairman, asks that you turn on your porch light. Anyone who would like to volunteer her services is asked to meet at the Lutheran Church at 6:30 p. m.

## Two Grade Schools Plan Joint Meet

Corwin and Franklin-Mound Street Schools will have a joint PTA meeting at Corwin Street School at 7:30 p. m. Thursday.

Mrs. Pauline Kirkpatrick, city health nurse, and Mrs. Doris White, speech therapist for the City Schools, will discuss loss of hearing defects and speech therapy. This will be illustrated by a film, followed by a question and answer period.

Clifford Kerns will present a short musical program.

## Full Legal Status At 18 Years Old

COLUMBUS, Ohio (AP)—State Rep. Harold Romer (D-Mercer) wants to submit to Ohio voters a proposed constitutional amendment to make all persons 18 or older "of full age for all purposes." The purposes would include allowing minors 18-21 to marry without parental consent and to make legal contracts. Romer offered the proposal as a resolution in the House Thursday.

## Rotary Hears About Tunisia

Leon Evans, vice president of the First National Bank, Jackson, yesterday told the Circleville Rotary Club about his two-month visit to Tunisia last year.

Evans went to the North African country as a State Department representative to assist the newly-independent country to establish a farm credit program.

He explained the history of the country, from the time of the Phoenicians to the present, described the geography and some of the customs.

## 5 Pickets in Akron Face Charge in Court

AKRON, Ohio (AP)—Five pickets were free on \$200 bond today and under order to appear in Municipal Court Tuesday to answer charges of beating a fellow worker at the Beringer Auto Reconditioning Co.

The five men are charged with assaulting Herman Lofton, 27, Wednesday after he quit the Teamsters Union and returned to work at the garage where Teamsters Local 348 is picketing to get bargaining representation rights for six employees.

Charged are James Silas, 45, Leroy White, 26, Willie Campbell 22, Blanton Jones, 43, and Sam L. Farmer, 38.

## 24,000 Pay Liquor Fees in Ohio in '58

COLUMBUS, Ohio (AP)—Fees from liquor permits totaling \$8,640,703 went to local governments last year, according to a report issued by Richard C. Crouch, director of the Ohio Department of Liquor Control.

The fees, paid by about 24,000 alcoholic beverage permit holders, are required by law to be returned to the local political subdivision in which the permit premises are located, with the intent they be used for liquor law enforcement.

## 'Metropolitan Expressway' Group Starts Taking Shape

COLUMBUS, Ohio (AP)—Metropolitan Expressways, a subdivision of the state highway director's office which replaces the "task force" of the O'Neill administration, has begun to take shape.

Administrator Ralph J. Lehman, who also headed the task force, Thursday named Robert W. Meyer of Columbus, a former highway department employee, as his executive assistant. Meyer was previously supervisor of photogrammetry for the department.

Lehman said Meyer will be the

middle man between Metropolitan Expressways and the Division of Planning and Programming. His job will be to eliminate delays in getting expressway projects to the contract stage.

A Massillon attorney, Derl Oberlin, will be right-of-way coordinator. Now a Columbus resident, Oberlin has worked on right-of-way proceedings with the Turnpike Commission for five years.

Other staff members are: Carl Campbell of Cuyahoga Falls, who will work with municipal representatives in the Cleveland, Canton, Akron, Youngstown and Massillon areas.

Robert Duis of Columbus, whose area will be Cincinnati, Newark, Zanesville, Steubenville and East Liverpool.

Orville Grubmeyer of Columbus, generally responsible for the Columbus, Dayton, Lima and Toledo areas.

The three will have the title of regional engineers.

Purpose of the new section is to speed development of expressway projects around metropolitan areas. The task force, now abolished, was also designed to be a project-hastening agency.

### Sesquicentennial Year Of Birth Observed

By THE ASSOCIATED PRESS

A year-long round of observances—ranging from the solemnity of memorial services through the gaiety of 19th century street dancing — will mark the 150th birthday anniversary of Abraham Lincoln.

President Eisenhower has proclaimed 1959 Lincoln Sesquicentennial Year.

Events reach a climax Feb. 12 with special ceremonies in the Midwest, homeland of the Civil War president, and in Washington.

Lord Mayor Willy Brandt of West Berlin, himself leader of half of a divided people, will pay tribute to the author of the "House Divided" speech when he addresses the expected 1,400 persons at an anniversary dinner in Springfield, Ill.

Earlier in the day, a joint session of Congress will eulogize the Great Emancipator with a speech by Lincoln author Carl Sandburg and the Gettysburg Address by actor Fredric March.

Preceding and following these Lincoln Week ceremonies, the sesquicentennial will leave its impact on everything from school convocations to county fairs.

A new one-cent piece—the first in 49 years—will be jingling in your pocket after Feb. 12, and three commemorative postage stamps will appear during the year.

Observances began Jan. 11 with a special service in Washington Cathedral. Events for the rest of the year are being planned nationally by the Lincoln sesquicentennial Commission and its counterparts in numerous states.

## Amos Sentenced

William Amos, 406 E. Ohio St., today in Pickaway County Common Pleas Court changed his plea of innocent to guilty on a charge of driving a motor vehicle while under the influence of intoxicants.

Amos was arrested by City Police on Aug. 27, 1958 and bound to the County Grand Jury. He was indicted by the September 1958 term of the Grand Jury.

Amos was sentenced the usual \$100 fine and costs, three days in the County Jail and lost his driving rights for six months. Sentence was passed by Judge William Ammer.

## Motorists Fined In Muny Court

Three traffic cases were included on today's schedule of events in Circleville Municipal Court.

Oren W. Taylor, 24, Route 1, Ashville, paid \$25 and costs for passing a barricade. Mrs. Patricia Morris, 23, of 576 Springhollow Road, was fined a similar amount for driving with no operator's license.

Richard H. Caudill, Route 3, Circleville, was fined \$10 and costs for parking a vehicle on the highway.

Taylor and Mrs. Morris were cited by the State Highway Patrol, Caudill by the sheriff's department.

Flash floods stem from a cloud-burst. Such a one struck Cambridge, Ohio, in July 1914. Seven inches of rain fell in 30 minutes.
